*Hugo Chávez* Nikolas Kozloff, 2025-06-25 Audacious provocative and bombastic few world politicians are as colorful as Hugo Chávez now making international news for his plans to nationalize U S owned businesses and his bold opposition to Washington's economic and trade policies As Venezuela gains importance as the fifth largest oil exporter in the world this firebrand leader is quickly moving to the public spotlight by uniting much of South America against the Bush administration and wielding oil as a geopolitical weapon To create this rich and objective portrait Nikolas Kozloff one of the few American journalists who has spent years in the Andean region has profiled Chávez's top advisors leaders of his movement and other key figures in both Venezuela and the U S The result is a timely exhaustive analysis of Chávez as a political leader and a nuanced examination of the president moving to the center of the global stage Includes a new afterword by the author with insights into Chávez's reelection in relation to wider hemispheric politics

*King of the Mountain* Arnold M. Ludwig, 2013-07-24 People may choose to ignore their animal heritage by interpreting their behavior as divinely inspired socially purposeful or even self serving all of which they attribute to being human but they masticate fornicate and procreate much as chimps and apes do so they should have little cause to get upset if they learn that they act like other primates when they politically agitate debate abdicate placate and administrate too King of the Mountain presents the startling findings of

Arnold M Ludwig's eighteen year investigation into why people want to rule. The answer may seem obvious: power, privilege and perks, but any adequate answer also needs to explain why so many rulers cling to power even when they are miserable, trust nobody, feel besieged and face almost certain death. Ludwig's results suggest that leaders of nations tend to act remarkably like monkeys and apes in the way they come to power, govern and rule. Profiling every ruler of a recognized country in the twentieth century, over 1,900 people in all, Ludwig establishes how rulers came to power, how they lost power, the dangers they faced and the odds of their being assassinated, committing suicide or dying a natural death. Then concentrating on a smaller sub set of 377 rulers for whom more extensive personal information was available, he compares six different kinds of leaders, examining their characteristics, their childhoods and their mental stability or instability to identify the main predictors of later political success. Ludwig's penetrating observations, though presented in a lighthearted and entertaining way, offer important insight into why humans have engaged in war throughout recorded history, as well as suggesting how they might live together in peace. Paige, 2008 **Library of the World's Best Literature, Ancient and Modern: Biographical dictionary** Charles Dudley Warner, 1898 **The Routledge History of World Peace since 1750** Christian Philip Peterson, William M.

Knoblauch, Michael Loadenthal, 2018-10-10 The Routledge History of World Peace since 1750 examines the varied and multifaceted scholarship surrounding the topic of peace and engages in a fruitful dialogue about the global history of peace since 1750. Interdisciplinary in nature, the book includes contributions from authors working in fields as diverse as history, philosophy, literature, art, sociology and Peace Studies. The book crosses the divide between historical inquiry and Peace Studies scholarship with traditional aspects of peace promotion sitting alongside expansive analyses of peace through other lenses, including specific regional investigations of the Middle East, Africa, Latin America and other parts of the world. Divided thematically into six parts that are loosely chronological in structure, the book offers a broad overview of peace issues such as peacebuilding, state building and/or conflict resolution in individual countries or regions and indicates the unique challenges of achieving peace from a range of perspectives. Global in scope and supported by regional and temporal case studies, the volume is an essential resource for educators, activists and policymakers involved in promoting peace and curbing violence, as well as students and scholars of Peace Studies, history and their related fields.
