The Spirit of Labor Hutchins Hapgood, 2004 This non fiction narrative is an entertaining look at labor struggles anarchist politics and proletarian culture in Chicago the heart of the radical labor movement in the turn of the century United States Through the story of its central character anarchist carpenter Anton Johanssen *The Spirit of Labor* pulls the reader into a vibrant gritty world inhabited by unionists and scabs anarchists and socialists hoboes and tramps radical reformers shady politicians and corrupt policemen workers equipped with ready fists and honest souls and by business leaders bent on crushing the city's militant labor movement The book also reflects the uncomfortable fit between the worlds of the bohemian intellectual and the radical worker Immediacy and humor make it a particularly appealing candidate for classroom use and James R Barrett adds a useful new introduction and extensive notes providing a historical and scholarly framework for the story

What Do We Need a Union For? Timothy J. Minchin, 2000-11-09 The rise in standards of living throughout the U S in the wake of World War II brought significant changes to the lives of southern textile workers Mill workers wages rose their purchasing power grew and their economic expectations increased with little help from the unions Timothy Minchin argues that the reasons behind the failure of textile unions in the postwar South lie not in stereotypical assumptions of mill workers passivity or anti union hostility but in these large scale social changes Minchin addresses the challenges faced by the TWUA competition from nonunion mills that matched or exceeded union wages charges of racism and radicalism within the union and conflict between its northern and southern branches and focuses especially on the devastating general strike of 1951 Drawing extensively on oral histories and archival records he presents a close look at southern textile communities within the context of the larger history of southern labor linking events in the textile industry to the broader social and economic impact of World War II on American society

Pittsburgh Francis G. Couvares,1984-06-30 What forces transformed a community in which industrial workers and other citizens exercised a real measure of power over their lives into a metropolis whose inhabitants were utterly dependent on Big Steel How did a city that fervidly embraced the labor struggle of 1877 turn into the city which so fiercely repudiated the labor struggle of 1919 The Remaking of Pittsburgh is the history of this transformation The cultural dimensions of industrialization come to life as Couvares calls upon labor history urban history and the history of popular culture to depict the demise of the craftsman s empire and the birth of a cosmopolitan bourgeois society The book explores the impact of immigration on the shaping of modern Pittsburgh and the emergence of mass culture within the community In the midst of these processes of transformation the giant steel corporations were continually reshaping the life of the city **Business**
