Biological Efficiency In Agriculture:

Biological Efficiency in Agriculture C. R. W. Spedding, J. M. Walsingham, A. M. Hoxey, 1981 Biological efficiency Agriculture purposes products and resources Adaptation to the environment The supply of nutrients Reproduction in plants Grain production Pulse crops Oil crops Root and tuber production Leaves stems and flowers Fruit and nut crops Sugar production Other crop products Fibre production Fuel crops Production from lower plants Adaptation to the environment The supply of nutrients Reproduction in animals Meat production Fish production Egg production Milk and milk products Other food products Non food animal products Animals for work The use of faeces The relative efficiency of plants and animals

The Biological Efficiency of Protein Production J. G. W. Jones, 1973 This 1973 volume reports the proceedings of a 1971 symposium considering the relative biological efficiency of alternative methods of protein production by plants and animals

J.M. Walsingham [u.] A.M. Hoxey: Biological efficiency in agriculture Colin Raymond William Spedding, A. M. Hoxey, J. M. Walsingham, 1981

An Introduction to Agricultural Systems C. Spedding, 2012-12-06 It would have been very easy to expand on all the sections of the first edition but I decided to try to retain the relatively short introductory nature of the book Some new material has been added particularly where it has been possible to update data and there has been some change of emphasis in places in order to reflect changing world conditions The book retains its original purpose however of introducing systems thinking as applied to agriculture I am grateful to Angela Hoxey for help in preparing this edition especially in relation to the preparation of tables and figures

C R W SPEDDING v Preface to the First Edition The agricultural systems of the world represent a very large subject Their study involves a great deal of fairly detailed knowledge as well as a grasp of the structures and functions of the systems themselves This book has been written as an introduction to such a study and it concentrates on an overall view rather than on the detail partly because of the need to relate the latter to some larger picture in order to appreciate the relevance and significance of the detail This problem of seeing the relevance of component studies and the significance of physical biological and economic detail and indeed principles is encountered by many agricultural students right at the beginning of their university careers

Resources Use Efficiency in Agriculture Sandeep Kumar, Ram Swaroop Meena, Manoj Kumar Jhariya, 2020-09-18 Achieving zero hunger and food security is a top priority in the United Nations Development Goals UNDGs In an era characterized by high population growth and increasing pressure on agricultural systems efficiency in the use of natural resources has become central to sustainable agricultural practices Fundamentally speaking eco efficiency is about maximizing agricultural outputs in terms of quantity and quality using less land water nutrients energy labor or capital The concept of eco efficiency involves both the ecological and economic aspects of sustainable agriculture It is therefore essential to understand the interaction of ecosystem constituents within the extensive agricultural landscape as well as farmers economic needs This book examines the latest eco efficient practices used in agro systems Drawing upon research and examples from around the world it offers an up to date overview

together with insights into directly applicable approaches for poly cropping systems and landscape scale management to improve the stability of agricultural production systems helping achieve food security The book will be of interest to educators researchers climate change scientists capacity builders and policymakers alike It can also be used as additional reading material for undergraduate and graduate courses on agriculture forestry soil science and the environmental sciences
