language but a foreign one which is used for education work or entertainment This is true for many European countries  
whose inhabitants need to learn English as a foreign language if they want to participate in education or among diverse fields  
in the workforce In other parts of the world it might be Spanish Hindi Mandarin Chinese Arabic or other languages which  
will be serving a similar role This need for learning a second language is understood well in many educational programs  
including those for students with special educational needs However to date there is not much research of the experiences of  
persons with diverse additional needs as learners of foreign languages The most robust literature covers the field of  
additional language acquisition among Deaf and Hard of Hearing DHH people cf Domagala Zysk Podlewska Moritz 2021 and  
others Goals methods and forms of teaching are fairly well described and DHH students' needs have been documented  
extensively
