Human Population Dynamics Helen Macbeth, Paul Collinson, 2002-06-20 In human populations biological social spatial ecological and economic aspects of

existence are inextricably linked demanding a holistic approach to their study Many undergraduate and postgraduate courses now emphasise the value of studying human populations using theoretical frameworks and methodologies from different traditional disciplines Human Population Dynamics introduces such frameworks and methodologies whilst demonstrating how changes in human population structure can be addressed from several different academic perspectives As such the book contains contributions from world renowned researchers in demography social and biological anthropology genetics biology sociology ecology history and human geography In particular the contributors emphasise the lability of many population structures and boundaries as viewed from their area of expertise This text is aimed at undergraduate students graduates and academic researchers from any academic discipline which considers human populations *Sex, Gender and Health* Tessa M. Pollard,Susan Brin Hyatt,1999-08-26 Explores differences in health experiences of boys girls men and women from both biological and social perspectives **Understanding Post-War British Society** Peter Catterall,James Obelkevich,2002-11-01 Too many sociology textbooks begin and end with how society is structured To understand how society operates it is necessary to explore not only its constituent structures and relationships but how these structures emerge and why changes occur within them By bringing together a group of distinguished sociologists and social historians this book critically appraises the usefulness of current theories in advancing our understanding of contemporary society It explores British society as dynamic and developing In the process the authors draw our attention to the fact that society is shaped not just by social policy and structures but by how far these influence people s life patterns attitudes experience and conduct Celia Brackenridge Cheltenham Gloucester College of Higher Education Joan C Brown Robert G Burgess University of Warwick Rosemary Crompton University of Kent John Curtice University of Str **Hunter-Gatherers** Catherine Panter-Brick,Robert H. Layton,P. Rowley-Conwy,Peter Rowley-Conwy,2001-03-29 This 2001 volume is an interdisciplinary text on hunter gatherer populations world wide **Infertility in the Modern World** Gillian R. Bentley,C. G. Nicholas Mascie-Taylor,2000-11-30 An interdisciplinary perspective on the ways in which human biology and culture can affect fertility **The Ashgate Research Companion to Biosocial Theories of Crime** Professor Anthony Walsh,Professor Kevin M Beaver,2013-01-28 This work spans multiple levels of analysis and thus multiple disciplines offering an essential overview of the current state of research in the field The authors are experts in a variety of disciplines sociology psychology biology criminal justice and neuroscience but they all have in common a strong interest in criminal behaviour This unique book is essential and accessible reading for all students and scholars in the field **Social Biology and Human Affairs** ,1995

Biosocial Aspects of Social Class C. G. N. Mascie-Taylor,2023 Four contributions on various aspects of social class are brought together concentrating on different concepts of social class the associations between class and mortality in Britain demography and the biological variables that are associated with social class **The Body as Material Culture** Joanna R. Sofaer,2006-02-16 Bodies intrigue us They promise windows into the past that other archaeological finds cannot by bringing

us literally face to face with history Yet the body is also highly contested Archaeological bodies are studied through two contrasting perspectives that sit on different sides of a disciplinary divide On one hand lie science based osteoarchaeological approaches On the other lie understandings derived from recent developments in social theory that increasingly view the body as a social construction Through a close examination of disciplinary practice Joanna Sofaer highlights the tensions and possibilities offered by one particular kind of archaeological body the human skeleton with particular regard to the study of gender and age Using a range of examples she argues for reassessment of the role of the skeletal body in archaeological practice and develops a theoretical framework for bioarchaeology based on the materiality and historicity of human remains

Culture, Kinship and Genes E. Parsons,A. Clarke,2016-07-27 The first comprehensive attempt to explore the issues raised by genetic counselling across cultures It will be of interest to health professionals and to students and lecturers in the social behavioural and political sciences and in genetics medicine and nursing The meaning and relevance of kinship and ethnicity in the context of genetic disease cultural issues that have arisen in practice including the influence of the lay public s beliefs about inheritance and the wider social and political context of genetics and genetic disease are all explored in depth

Learning from HIV and AIDS George Ellison,Melissa Parker,Catherine Campbell,2003-10-30 Different professional and academic disciplines have addressed the HIV AIDS pandemic from a variety of perspectives using different analytical approaches By bringing these together in one volume Learning from HIV AIDS provides a more complete picture of this multifaceted disease from the biological and social factors which facilitate HIV transmission to the powerful cultural and political forces which fuel the pandemic Chapters from contributors working on the aetiology treatment and prevention of HIV AIDS identify how their work has helped predict the spread of HIV and has improved the survival of those infected Yet interventions to reduce the spread of HIV have had limited success and few HIV infected individuals have access to combination drug therapies Written for students and researchers and taking an interdisciplinary perspective this book demonstrates that progress in developing effective and acceptable interventions can only be achieved through collaboration between the biological medical and social sciences **Sociologies of Food and Nutrition** Wm. Alex McIntosh,2013-11-21

Here Wm Alex McIntosh analyzes the relationship between food and nutrition and social factors using a wide array of sociological theories The author applies theories of social organization culture social stratification social change rural sociology the sociology of the body and social problems to empirical problems in food and nutrition By doing so he sheds light on issues such as the rise of the state population growth famine obesity eating disorders the maldistribution of food across class gender and ethnic boundaries and the changing nature of the food industry *Epidemiology and the People's Health* Nancy Krieger,2024 Theory Traced to its Greek roots theory means to see inwards to theorize is to use our mind s eye systematically following articulated principles to discern meaningful patterns among observations and ideas Oxford English Dictionary OED 2022 The implication is that without theory observation is blind and explanation is impossible
