Anderson, 1999-01-01 Major reference work documents the global history of Christian missions by means of biographical articles on the most outstanding missionaries from the past 2 000 years Toward the Twenty-first Century in Christian Mission James M. Phillips, Robert T. Coote, 1993 This unique volume offers a comprehensive survey of the prospects and critical issues for the Christian world mission The essays written by various mission experts cover such topics as the biblical and theological basis of the mission women in mission urban mission dialogues with other faiths the anthropology of popular religions and more Constants in Context Stephen B. Bevans, Roger P. Schroeder, Roger Schroeder, 2004-01-01 Mission is handicapped without a sound biblical theology of mission and an understanding of the history of mission leading up to our current context Constants in Context offers both of these elements It is mission theology in historical perspective and or a history of mission that is grounded theologically The authors describe it as a systematic theology with mission at its core and a church history shaped by the constant but always contextual Christian traditions Furthermore it is a constructive contribution to how mission theology needs to be practical and lived out through today s church and in our world Written collaboratively by Roman Catholic writers Stephen Bevans and Roger Schroeder both Missionaries of the Divine Word SVDs It is a particularly insightful in regard to the history and the various streams of Catholic mission but it also addresses and learns from the other traditions of the church In fact one of the book s strengths is its attention to neglected aspects and hidden stories of church and mission history As a result it is gratifying to be inspired by non European mission women in mission and various forgotten or often ignored branches of the church The book is in three sections first there is a framework for cultural contexts and theological constants second an in depth exploration of historical stages and different models for mission and third a presentation of theological frameworks for mission The third section concludes with a case for mission as prophetic dialogue being the most appropriate model for 21st century mission Amazon com **Christian Mission** Edward L. Smither, 2019-03-06 A deeper understanding of the grand history of mission leads to a faithful expression of God s mission today From the beginning God s mission has been carried out by people sent around the world From Abraham to Jesus the thread that weaves its way throughout Scripture is a God who sends his people across the world proclaiming his kingdom As the world has evolved Christian mission continues to be a foundational tradition in the church In this one volume textbook Edward Smither weaves together a comprehensive history of Christian mission from the apostles to the modern church In each era he focuses on the people sent by God to the ends of the earth while also describing the cultural context they encountered Smither highlights the continuity and development across thousands of years of global mission Christian

Burgess, Paul W. Lewis, 2017-03-02 The essays in this volume which are written by friends colleagues and former students are dedicated to Gary B McGee as a memorial to his life work and service As a professor with a clear calling to teach he modeled this passion at the Open Bible College Des Moines Iowa Central Bible College Springfield Missouri and the Assemblies of God Theological Seminary Springfield Missouri He exuded the understanding that quality teaching superior scholarship a genuine Pentecostal spirituality and an irenic spirit can and should go together Within the title of this volume A Light to the Nations two aspects become clear First each person is called to be a light to the nations as Gary McGee modeled Second and foundational to the first is the reality that Jesus Christ is the ultimate light and our energies study discussions and life in general should rely on this fact As a reflection of Gary McGee s life and ministry these two aspects are focused through three lenses which are the three sections of this volume Ecumenism Missions and Pentecostalism The essays represent a diversity of subjects and denote various explorations by colleagues and friends of Gary B McGee **Unlikely Friends** David W.

Scott, Daryl R. Ireland, Grace Y. May, Casely B. Essamuah, 2021-07-08 Can something as simple as friendship have a transformative impact in a divided world Through a series of richly textured historical portraits and reflections on personal experience this book shows that boundary crossing friendships in Christian mission have shaped theologies built organizations and partnerships facilitated mission work and changed attitudes and ways of thinking This is true in settings as varied as eighteenth century French women s work twentieth century urban Boston colonial India the Jim Crow South and twentieth century rural Congo In all these settings and more friendship has mattered Boundary crossing friendships are however not easy Despite their power such friendships are complicated by race gender ability class nationality and other elements of identity as this book also demonstrates Friendships are not immune from the divisions in the world nor a simple cure all for them Still friendship stands as a powerful testimony to the gospel Therefore the book calls for more attention to friendship in the study of mission history and more living out of friendship as a practice of mission In this way this book pays honor to Dr Dana L Robert as a pre eminent mission scholar and exemplary friend and mentor to others in the fields of missiology and world Christianity **The Role of the American Board in the World** Clifford Putney, Paul T.

Burlin, 2012-02-17 The American Board of Commissioners for Foreign Missions ABCFM was the country s first creator of overseas Christian missions Founded in 1810 and supported by a coalition of Calvinist denominations the ABCFM established the first American missions in India China Africa Oceania the Middle East and many other places It was America s largest missionary organization in the nineteenth century and its influence was immense Its missionaries established the first Western schools and hospitals in many parts of the world and they successfully promoted women s rights and other ideals from the Enlightenment They also transformed oral languages such as Zulu Hawaiian and Cherokee into written form and they preserved many elements of premodern cultures albeit not always intentionally The contributors to this book provide valuable insights on the work of the ABCFM which exists today under a different name Some of the contributors profile the

lives of notable ABCFM missionaries others focus on ideological shifts within the Board and still others chronicle the Board's role in historic events including the Opium Wars the colonization of Hawai'i and the Armenian Genocide From reading this book people will come to understand why the ABCFM is widely viewed as America's most historically significant missionary organization

Christianity in China Gary Tiedemann, 2009-12-02 This second volume on Christianity in China covers the period from 1800 onwards up to the present divided into three main periods and dealing with the complexities of both Catholic and Protestant aspects Also in this volume the reader will be guided to and through the Chinese and Western primary and secondary sources by carefully selected major scholars in the field Produced with financial support from the Ricci Institute at the University of San Francisco Center for the Pacific Rim American Missionaries in Iran during the 1960s and 1970s Philip O.

Hopkins, 2020-09-22 This work explores the interaction of American Protestant missionaries with Iranians during the 1960s and 1970s It focuses on the missionary activities of four American Protestant groups Presbyterians Assemblies of God International Missions and Southern Baptists It argues that American missionaries' predisposition toward their own culture confused their message of the gospel and added to the negative perception of Christianity among Iranians This bias was seen primarily in the American missionaries' desire to modernize Iran through education and healthcare and between the missionaries' relationship with Iranian Christians Iranian attitudes towards missionary involvement in these areas are investigated as is the changing American missionary strategy from a traditional method where missionaries had the final say

on most matters related to American and Iranian Christian interaction to the beginnings of an indigenous system where a partnership developed between the missionary and the Iranian Christian

Majority World Perspectives on Christian Mission Nico A. Botha, Eugene Baron, 2022-05-12 It affords us real pleasure to present this editorial on behalf of the Majority World Christian Leaders Conversation MWCLC The MWCLC started slowly but surely since 2016 following a groundbreaking conversation among eleven mission practitioners from the Majority World who met in the United Kingdom somewhere between London and Oxford At the meeting several themes emerged under the banner of missionary questions and impulses of the Majority World from the perspective of the reign of God These themes and more find reflection in the book However before proceeding to the content of the anthology a note on the concept Majority World seems necessary The time where terms like Third World gained strong currency is long since gone The term Majority World is a new kid on the block and requires some clarification The use of the term is a strategy of avoiding concepts like Developing or Third World or even Global South which are pejorative in a real sense To speak of the Majority World is geographically accurate in that Africa Asia and Latin America are included

Religion Versus Empire? Andrew Porter, 2004-10-29 This is the only book that addresses the relations between religion Protestant missions and empire building linking together all three fields of study by taking as its starting point the early eighteenth century Anglican initiatives in colonial North America and the Caribbean It considers how the early societies of the 1790s built on this inheritance and extended their own interests to the Pacific India the Far East and Africa Fluctuations in the vigor and commitment of the missions changing missionary theologies and the emergence of alternative missionary strategies are all examined for their impact on imperial expansion Other themes include the international character of the missionary movement Christianity s encounter with Islam and major figures such as David Livingstone the state and politics and

humanitarianism all of which are viewed in a fresh light **World Christianity and the Unfinished Task** F. Lionel Young, III, 2021-03-15 This book is a short introduction to one of the most remarkable transformations in the modern world that many people still do not know about In 1900 more than 80 percent of the world's Christians lived in Europe and North America and nearly all of the world's missionaries were sent out from the West to the rest In a dramatic turn of events Christianity experienced a decidedly Southern shift during the twentieth century Today nearly 70 percent of the world's 2.5 billion Christians live in Africa Asia and Latin America while nearly half of all missionaries are being sent out into all the world from places like Brazil Ethiopia and South Korea This book is intended to change the way readers think about the church and challenge the way the Western Christians engage in contemporary missions Christian Mission Dana L. Robert, 2009-04-06 Exploring how Christianity became a world religion this brief history examines Christian missions and their relationship to the current globalization of Christianity A short and enlightening history of Christian missions a phenomenon that many say reflects the single most important intercultural movement over a sustained period of human history Offers a thematic overview that takes into account the political cultural social and theological issues Discusses the significance of missions to the globalization of Christianity and broadens our understanding of Christianity as a multicultural world religion Helps Western audiences understand the meaning of mission as a historical process Contains several new maps that illustrate demographic shifts in world Christianity *The God in Us* Hlumelo Biko, 2024-06-07 This book traces the unitary source of all of the world's major religions The book underscores the fact that there are many ways in which humanity has sought revelation of God yet there is a common inspiration behind humanity's God concept The author's analysis of world religions or faiths adopts a multi interdisciplinary approach taking the reader through historical anthropological archaeological and theological viewpoints to make juxtapositions God in us is a rich resource that helps the readers understand the origins of human civilisation and how humans began to worship God domesticate animals like sheep invent astrology and create languages Biko's research also delves deeper into unveiling African indigenous knowledge systems and science that predate the arrival of the colonisers on the African soil Print edition not for sale in Sub Saharan Africa
