Biography Of Muhammad:

The Biography of Muhammad Gregor Schoeler, 2010-10-18 This book considers the Arabic biographies of Prophet Muhammad the earliest of which dates from two centuries after his life These biographies prized by Muslims have been approached in the Western study of Islam from a range of positions Some scholars reject them entirely seeing in them products of the Muslim community's idealisation of its history while others accept them at face value reasoning that if not exact versions of events the events could not have differed too much from their descriptions The author revisits the debate and reconsiders several key incidents in the life of the Prophet By compiling an extensive corpus of materials and comparing them closely this book analyses the transmission and the contents of the accounts It shows that by understanding clearly the interaction in early Islam between written and oral modes of transmission and by the judicious sieving of the accounts as well as the lines of transmission we can sometimes reach back to that generation of Muslims who though not themselves witness to the events were younger contemporaries of those who were Establishing a solid basis for the informed study of Muhammad's biography and adding to the ongoing debate this book will appeal to scholars of early Islam history and theology

The Prophet Muhammad Barnaby Rogerson, 2003 In this biography Barnaby Rogerson explores the life and times of this deeply influential figure Vividly describing the sixth century Arabia where Muhammad was born Rogerson charts his early years among the flocks the caravans and the markets of his native Mecca the night the Archangel Gabriel appeared before him and Muhammad become the messenger of God the dangerous years of reciting the divine revelations in Mecca his escape to Yathrib Medina and the subsequent battles between the pagan Meccans and the Prophet's Muslim forces who would ultimately prove victorious
