Continuity of Neural Functions from Prenatal to Postnatal Life Heinz F. R. Prechtl,1984 Is the human neonate indeed physiological premature as has been frequently stated How does human neural development compare with that of other primate species Is early human development a gradual unfolding of neural mechanisms from prenatal to postnatal life or does it show rapid transformations at particular ages The aim of this book is to answer these and similar questions about the functional repertoire of the human fetus neonate and young infant Two main theoretical concepts are considered first the relationship between neural maturation and the duration of pregnancy and second the existence of ontogenetic adaptations Surveys and findings relevant to these concepts are provided by experts from various disciplines involved in research on fetal and preterm development and on the first three months of postnatal life This book differs from many others summarizing descriptive knowledge of the field by emphasizing new theoretical concepts of early functional development Recent ultrasound studies of the fetus have contributed greatly to this new approach which has clear implications for the assessment and care of young infants This thought provoking book will be of interest to developmental neurologists pediatricians and obstetricians as well as to developmental psychologists and physical anthropologists *Infant and Early Childhood Neuropsychology* Glen P. Aylward,1997-11-30 Clinical neuropsychology for infants and young children is an emerging field that contains as much promise as it does perplexing practical and theoretical questions Infant and Early Childhood Neuropsychology is a groundbreaking study that provides an assessment framework and diagnostic clues for clinicians and researchers as well as the first documentation and description of this new field for students The clearly written text translates neuroanatomic issues into clinical applications for professionals charged with making neuropsychological assessments of infants and young children Handbook of Psychosocial Characteristics of Exceptional Children Vicki L. Schwean,Donald H.
