Gross, Lynn Davies, Al-Khansaa Diab, 2012-12-04 The immense changes that the world is undergoing in terms of globalization and migration of peoples have had a profound effect on cultures and identities The question is whether this means shifts in religious identities for women and men in different contexts whether such shifts are seen as beneficial negative or insufficient or whether social change actually means new conservatism or even fundamentalisms Surrounding these questions is the role of education is in any change or new contradiction This unique book enhances an interdisciplinary discourse about the complex intersections between gender religion and education in the contemporary world Literature in the social sciences and humanities have expanded our understanding of women's involvement in almost every aspect of life yet the combined religious educational aspect is still an under studied and often under theorized field of research How people experience their religious identity in a new context or country is also a theme now needing more complex attention Questions of the body visibility and invisibility are receiving new treatments This book fills these gaps The book provides a strong comparative perspective with 15 countries or contexts represented The context of education and learning covers schools higher education non formal education religious institutions adult literacy curriculum and textbooks Overall the book reveals a great complexity and often contradiction in modern negotiations of religion and secularism by girls and boys women and men and a range of possibilities for change It provides a theoretical and practical resource for researchers

Clinical Implications of the Psychoanalyst's Life Experience Steven Kuchuck,2013-10-23 2015 Grady Award Winner Clinical Implications of the Psychoanalyst s Life Experience explores how

leaders in the fields of psychoanalysis and psychotherapy address the phenomena of the psychoanalyst's personal life and psychology. In this edited book each author describes pivotal childhood and adult life events and crises that have contributed to personality formation, personal and professional functioning, choices of theoretical positions and clinical technique. By expanding psychoanalytic study beyond clinical theory and technique to include a more careful examination of the psychoanalyst's life events and other subjective phenomena, readers will have an opportunity to focus on specific ways in which these events and crises affect the tenor of the therapist's presence in the consulting room and how these occurrences affect clinical choices. Chapters cover a broad range of topics including illness, adoption, sexual identity and experience, trauma, surviving the death of one's own analyst, working during 9/11, cross-cultural issues, growing up in a communist household and other family dynamics. Throughout, Steven Kuchuck ed. shows how contemporary psychoanalysis teaches that it is only by acknowledging the therapist's life experience and resulting psychological makeup that analysts can be most effective in helping their patients. However, to date few articles and fewer books have been entirely devoted to this topic. *Clinical Implications of the Psychoanalyst's Life Experience* forges new ground in exploring these under-researched areas. It will be essential reading for practicing psychoanalysts, psychotherapists, psychologists, social workers, those working in other mental health fields and graduate students alike.

Religion, Race, Multiculturalism, and Everyday Life Christopher Williams, 2023-11-25. *Religion, Race, Multiculturalism and Everyday Life* takes a spirited conceptualist look back into the history of our development. The book sets out to explore the ways in which a punditry of human equality continues to lock in unassailably assured logical postures enabled by the historically intertwined roles played by power and the passage of time towards the invention and sustenance of social truth. Religion, race and multiculturalism have been written about many times and from a variety of academic discipline-specific perspectives. Nonetheless, these social issues remain ever relevant to any sincere bid to understand the inequalitarian aspects of modern society. *Religion, Race, Multiculturalism and Everyday Life* was primarily written with serious students of philosophy, sociology, the humanities and history in mind. The author contends that we should never be too afraid to explore contentious or difficult philosophical and social questions.

Metalanguage in Interaction Yael Maschler, 2009. *Metalanguage in Interaction* is about the crystallization of

Gendering Modern Jewish Thought Andrea Dara Cooper, 2021-11-02 The idea of brotherhood has been an important philosophical concept for understanding community equality and justice In Gendering Modern Jewish Thought Andrea Dara Cooper offers a gendered reading that challenges the key figures of the all male fraternity of twentieth century Jewish philosophy to open up to the feminine Cooper offers a feminist lens which when applied to thinkers such as Franz Rosenzweig and Emmanuel Levinas reveals new ways of illuminating questions of relational ethics embodiment politics and positionality She shows that patriarchal kinship as models of erotic love brotherhood and paternity are not accidental in Jewish philosophy but serve as norms that have excluded women and non normative individuals Gendering Modern Jewish Thought suggests these fraternal models do real damage and must be brought to account in more broadly humanistic frameworks For Cooper a more responsible and ethical reading of Jewish philosophy comes forward when it is opened to the voices of mothers sisters and daughters
