Ford, 2016-04-20 Charting innovative directions in the environmental humanities this book examines the cultural history of climate change under three broad headings history writing and politics Climate change compels us to rethink many of our traditional means of historical understanding and demands new ways of relating human knowledge action and representations to the dimensions of geological and evolutionary time To address these challenges this book positions our present moment of climatic knowledge within much longer histories of climatic experience Only in light of these histories it argues can we properly understand what climate means today across an array of discursive domains from politics literature and law to neighbourly conversation Its chapters identify turning points and experiments in the construction of climates and of atmospheres of sensation They examine how contemporary ecological thought has repoliticised the representation of nature and detail vital aspects of the history and prehistory of our climatic modernity This ground breaking text will be of great interest to researchers and postgraduate students in environmental history environmental governance history of ideas and science literature and eco criticism political theory cultural theory as well as all general readers interested in climate change Walter Benjamin and the Demands of History Michael P. Steinberg, 1996 This book is the first to consider the

presence of history and the question of historical practice in Walter Benjamin's work Benjamin the critic and philosopher of history was also the practitioner the authors contend and it is in the practice of historical writing that the materialist aspect of his thought is most evident Some of the essays analyze Benjamin's writings in cultural history and the philosophy of history Others connect his historical and theoretical practices to issues in contemporary feminism and post colonial studies and to cultural contexts including the United States Japan and Hong Kong In different ways the authors all find in Benjamin's specific notion of historical materialism a dialectic between textual and cultural analysis which can reinvigorate the relation between literary and historical studies **Darwin and Theories of Aesthetics and Cultural History** Barbara

Wood, 2021-03-02 In this authoritative

book the first of its kind in English Christopher Wood tracks the evolution of the historical study of art from the late middle ages through the rise of the modern scholarly discipline of art history Synthesizing and assessing a vast array of writings episodes and personalities this original and accessible account of the development of art historical thinking will appeal to readers both inside and outside the discipline The book shows that the pioneering chroniclers of the Italian Renaissance Lorenzo Ghiberti and Giorgio Vasari measured every epoch against fixed standards of quality Only in the Romantic era did art historians discover the virtues of medieval art anticipating the relativism of the later nineteenth century when art history learned to admire the art of all societies and to value every work as an index of its times The major art historians of the modern era however Jacob Burckhardt Aby Warburg Heinrich W Ifflin Erwin Panofsky Meyer Schapiro and Ernst Gombrich struggled to adapt their work to the rupture of artistic modernism leading to the current predicaments of the discipline Combining erudition with clarity this book makes a landmark contribution to the understanding of art history from book jacket *Dove Va la Storia Economica?* Francesco Ammannati,2011 **The Cambridge Companion to Walter Benjamin**

Art History for Comics Ian Horton, Maggie Gray, 2022-09-20 This book looks at comics through the lens of Art History examining the past influence of art historical methodologies on comics scholarship to scope how they can be applied to Comics Studies in the present and future It unearths how early comics scholars deployed art historical approaches including stylistic analysis iconography Cultural History and the social history of art and proposes how such methodologies updated in light of disciplinary developments within Art History could be usefully adopted in the study of comics today Through a series of indicative case studies of British and American comics like Eagle The Mighty Thor 2000AD Escape and Heartbreak Hotel it argues that art historical methods better address overlooked aspects of visual and material form Bringing Art History back into the interdisciplinary nexus of comics scholarship raises some fundamental questions about the categories frameworks and values underlying contemporary Comics Studies
