**The Event in Science, History, Philosophy and Art** Yeshayahu Ben-Aharon, 2011-10 In this book Dr Ben Aharon demonstrates how the transformation of human consciousness in modern times is expressed in the fields of Science History Philosophy and Art He shows how creative concepts have been discovered and applied in physics biology

genetics and artificial intelligence In the Philosophy chapter Ben Aharon traces the thought of Deleuze and Guattari Foucault Derrida Badiou and Levinas and shows that this radical thinking is no longer abstract theoretical reasoning or mere speculation Rather it is an exercise in generating real cognitive and moral substance taking the human beyond the traditional boundaries of body subjectivity and identity The chapter on Art demonstrates how contemporary artistic work joins together with science and thinking to create a new stream of real becoming and evolution The historical decision of our time is then Are we going to apply this new creativity in social life or will we reverse it into its destructive opposite *Being Human*

Richard Gross,2013-01-11 Richard Gross turns his expert eye to the psychology of human nature in a contemplative account encompassing cognition consciousness language time perception sense of mortality and human society This book will help you to consider the unique aspects of being human and to understand the biological underpinnings for the intriguing and distinct behaviours and experiences common to human beings The book is enhanced throughout by its logical arrangement of topics with key questions issues for additional focus and reflection points highlighted throughout useful chapter introductions and summaries to provide clarity and insight diagrams to help explain difficult concepts detailed selection of references and useful sources including works from the fields of psychology philosophy religion and literature This book is essential reading for students of psychology and related disciplines as well as general readers seeking insights into one of the most enduring questions to have faced humankind throughout history **The Embarrassment of Being Human** Benjamin

Boysen,2024-12-24 With the message that everything in a sense is alive thus allowing us to join forces with new politico ethical communities stretching across human and nonhuman realms the new materialisms have captivated the minds of many academics artists and intellectuals by stressing that it is time to return to a premodern mindset and discard modernity and its concepts of secularization autonomy and finitude The Embarrassment of Being Human not only demonstrates how these magical materialisms are beset by grave theoretical and practical inconsistencies and self contradictions It also demonstrates how their demand for humans to step down and allow for an emancipation of things qualifies the new materialisms as a metaphysics of neoliberalism that reproduces and fortifies the self contradictions rampant in the current neoliberal hegemony While helping us to gain a comprehensive understanding of the tenets of the eerie ills of our epoch the critique of the new materialisms can furthermore inspire us to appreciate how the exact inversion of the new materialist complex amounts to a revitalization of the modern project A revitalization that is critical to think our epoch differently **Quality of**
