Meter and Modernity in English Verse, 1350-1650 Eric Weiskott, 2021-01-15 What would English literary history look like if the unit of measure were not the political reign but the poetic tradition The earliest poems in English were written in alliterative verse the meter of Beowulf Alliterative meter preceded tetrameter which first appeared in the twelfth century and tetrameter in turn preceded pentameter the five stress line that would become the dominant English verse form of modernity though it was invented by Chaucer in the 1380s While this chronology is accurate Eric Weiskott argues the traditional periodization of literature in modern scholarship distorts the meaning of meters as they appeared to early poets and readers In *Meter and Modernity in English Verse 1350 1650* Weiskott examines the uses and misuses of these three meters as markers of literary time medieval or modern though all three were in concurrent use both before and after 1500 In each section of the book he considers two of the traditions through the prism of a third element alliterative meter and tetrameter in poems of political prophecy alliterative meter and pentameter in William Langland's *Piers Plowman* and early blank verse and tetrameter and pentameter in Chaucer his predecessors and his followers Reversing the historical perspective in which scholars conventionally view these authors Weiskott reveals Langland to be metrically precocious and Chaucer metrically nostalgic More than a history of prosody Weiskott's book challenges the divide between medieval and modern literature Rejecting the premise that modernity occurred as a specifiable event he uses metrical history to renegotiate the trajectories of English literary history and advances a narrative of sociocultural change that runs parallel to metrical change exploring the relationship between literary practice social placement and historical time

The Riverside Chaucer Geoffrey Chaucer, Larry Dean Benson, 2008 The third edition of the definitive collection of Chaucer's *Complete Works* reissued with a new foreword by Christopher Cannon Since F N Robinson's second edition of the *The Works of Geoffrey Chaucer* was published in 1957 there has been a dramatic increase in Chaucer scholarship This has not only enriched our understanding of Chaucer's art but has also enabled scholars working for the first time with all the source material to recreate Chaucer's authentic texts For the third edition an international team of experts completely re-edited all the works added glosses to appear on the page with the text and greatly expanded the introductory material explanatory notes textual notes bibliography and glossary In short the *Riverside Chaucer* is the fruit of many years study the most authentic and exciting edition available of Chaucer's *Complete Works*
