Art Of China:

Art in China Craig Clunas, 1997 China can boast a history of art lasting 5 000 years and embracing a huge diversity of images and objects jade tablets painted silk handscrolls and fans ink and lacquer painting porcelain ware sculptures and calligraphy They range in scale from the vast terracotta army with its 7 000 or so life size figures to the exquisitely delicate writing of fourth century masters such as Wang Xizhin and his teacher Lady Wei But this rich tradition has not until now been fully appreciated in the West where scholars have focused their attention on sculpture downplaying art more highly prized by the Chinese themselves such as calligraphy Art in China marks a breakthrough in the study of the subject Drawing on recent innovative scholarship and on newly accessible studies in China itself Craig Clunas surveys the full spectrum of the visual arts in China He ranges from the Neolithic period to the art scene of the 1980s and 1990s examining art in a variety of contexts as it has been designed for tombs commissioned by rulers displayed in temples created for the men and women of the educated elite and bought and sold in the marketplace Many of the objects illustrated in this book have previously been known only to a few specialists and will be totally new to a general audience The Arts of China Michael Sullivan, 1999 Sullivan has thoroughly revised this classic history of Chinese art which covers the period from Neolithic times to the 1990s 224 photos 164 color illustrations 14 maps **Art and Artists of Twentieth-Century China** Michael Sullivan, 2023-12-22 This visually stunning book focuses on the rebirth of Chinese art in the twentieth century under the influence of Western art and culture Michael Sullivan recognized throughout the world as a leading scholar of Chinese art vividly documents the conflicting pulls of traditional and Western values on Chinese art and provides 364 illustrations in color and black and white to show the great range of artistic expression and the historical processes that occurred within various movements A substantial biographical index of twentieth century Chinese artists is a valuable addition to the text Sullivan discusses artists and their work against China's background of oppression and relaxation despair and hope He expertly conveys the diverse and at times bizarre intertwining of Chinese cultural history and art during this century Included are the intense debates between traditionalists and reformers the creation of the first art schools and the birth of the idea shocking in ethnocentric China that art is a world language that obliterates all frontiers The scholarly traditions of classical Chinese painting the belated discovery of Western modernism the artistic upheaval under Communism and China's rethinking of the very nature of art all have a place in Sullivan's fascinating history Michael Sullivan has known many of the major figures in China's modern art movement of the 1930s and 1940s and has also gained the confidence of younger artists who rose to prominence following the 1979 Peking Spring This long awaited book richly documented and abundantly illustrated is a capstone to Sullivan's work and will be enthusiastically welcomed by art lovers everywhere **The Arts of China, Fifth Edition, Revised and Expanded** Michael Sullivan, 2008 From the Neolithic to the avant garde and through all the brilliant centuries in between Michael Sullivan's introduction to Chinese art history is the classic in its field unsurpassed

Chinese Art and Its Encounter with the World David Clarke, 2011-08-01

Chinese Art and Its Encounter with the World examines Chinese art from the mid eighteenth century to the present beginning with discussion of a Chinese portrait modeler from Canton who traveled to London in 1769 and ending with an analysis of art and visual culture in post colonial Hong Kong By means of a series of six closely focused case studies often deliberately introducing non canonical or previously marginalized aspects of Chinese visual culture it analyzes Chinese art's encounter with the broader world and in particular with the West Offering more than a simple charting of influences it uncovers a pattern of richly mutual interchange between Chinese art and its others Arguing that we cannot fully understand modern Chinese art without taking this expanded global context into account it attempts to break down barriers between areas of art history which have hitherto largely been treated within separate and often nationally conceived frames Aware that issues of cultural difference need to be addressed by art historians as much as by artists it represents a pioneering attempt to produce art historical writing which is truly global in approach David Clarke is Professor in the Department of Fine Arts University of Hong Kong
