the art of memory in exile vladimir nabokov & milan kundera hana pichova, In their virtuoso displays of literary talent Nabokov and Kundera showcase the strategies that allow their protagonists to succeed as emigres a creative fusing of past and present through the prism of the imagination *Post-Yugoslav Constellations* Vlad Beronja, Stijn Vervaeke, 2016-01-15 Memory in the Balkans has often been described as binding authoritative and non negotiable functioning as a banner of war This book challenges such a one dimensional representation and offers a more nuanced analysis that accommodates frequently ignored instances of transnational solidarity dialogue communal mourning and working through a difficult past Exploring a broad range of memorial practices the book focuses on the ways in which cultural memory is mediated performed and critically reworked by literature and the arts in the former Yugoslavia Against the methodological nationalism of works that study Serbian Croatian or Bosniak culture as self contained this book examines post Yugoslav literature film visual culture and politicized art practices from a supranational angle Not solely focusing on traumatic memories but also exploring how post Yugoslav cultural practices mobilize memory for a politics of hope this volume moves beyond the trauma paradigm that still dominates memory studies In its scope and approach the book shows the relevance of the cultural memory of Eastern European citizens and the contribution they can offer to the building of Europe's shared cultural memory and transnational identity The Ashgate Research Companion to Memory Studies Siobhan Kattago, 2016-03-23 Memory has long been a subject of fascination for poets artists philosophers and historians This timely volume edited by Siobhan Kattago examines how past events are remembered contested forgotten learned from and shared with others Each author in The Ashgate Research Companion to Memory Studies has been asked to reflect on his or her research companions as a scholar who studies memory The original studies presented in the volume are written by leading experts who emphasize both the continuity of heritage and tradition as well as the memory of hostilities traumas and painful events Comprised of four thematic sections The Ashgate Research Companion to Memory Studies provides a comprehensive overview of the latest research within the discipline The principal themes include Memory History and Time Social Psychological and Cultural Frameworks of Memory Acts and Places of Memory Politics of Memory Forgetting and Democracy Featuring contributions from key thinkers in the field this comprehensive volume will be a valuable resource for all academics and students working within this area of study Caught By Politics S. Koepnick, 2016-09-23 This book explores German and European exile visual artists designers and film practitioners in the United States such as Max Beckmann George Grosz Hans Richter Peter Lorre and Edgar Ulmer and examines how American artists including Walter Quirt Jackson Pollock and Robert Motherwell responded to the Europeanization of American culture **Performing Memory in Art and Popular Culture** Liedke Plate, Anneke Smelik, 2013 This volume pursues a new line of research in cultural memory studies by understanding memory as a performative act in art and popular culture The authors take their cue from the observation that art and popular

culture enact memory and generate processes of memory They do memory and in this doing of memory new questions about the cultural dimensions of memory arise How do art objects and artistic practices perform the past in the present What is their relationship to the archive Does the past speak in the performed past or do we speak to it To what purpose do objects recall And for whom do they recollect Here authors combine a methodological focus on memory as performance with a theoretical focus on art and popular culture as practices of remembrance The essays in the book thus analyze what is at stake in the complex processes of remembering and forgetting of recollecting and disremembering of amnesia and anamnesis that make up cultural memory

Diaspora and Memory ,2016-08-01 Experiences of migration and dwelling in displacement impinge upon the lives of an ever increasing number of people worldwide with business class comfort but more often with unrelenting violence Since the early 1990s the political and cultural realities of global migration have led to a growing interest in the different forms of diasporic existence and identities The articles in this book do not focus on the external boundaries of diaspora what is diasporic and what is not but on one of its most important internal boundaries which is indicated by the second term in the title of this book memory It is not by chance that the right to remember the responsibility to recall are central issues of the debates in diasporic communities and their relation to their cultural and political surroundings The relation of diaspora and memory contains important critical and maybe even subversive potentials Memory can transcend the territorial logic of dispersal and return and emerge as a competing source of diasporic identity The articles in this volume explore how shaped by the responsibilities of testimony as well as by the normalizing forces of amnesia and forgetting and political interests memory is a performative figurative process rather than a secure space of identity

**Misplaced Objects** Silvia Spitta,2009-07-01 When things move things change Starting from this deceptively simple premise Silvia Spitta opens a fascinating window onto the profound displacements and transformations that have occurred over the six centuries since material objects and human subjects began circulating between Europe and the Americas This extended reflection on the dynamics of misplacement starts with

the European practice of collecting objects from the Americas into Wunderkammern literally cabinets of wonders Stripped of all identifying contexts these exuberant collections including the famous Real Gabinete de Historia Natural de Madrid upset European certainties forcing a reorganization of knowledge that gave rise to scientific inquiry and to the epistemological shift we call modernity In contrast cults such as that of the Virgin of Guadalupe arose out of the reverse migration from Europe to the Americas The ultimate marker of mestizo identity in Mexico the Virgin of Guadalupe is now fast crossing the U S Mexico border and miracles are increasingly being reported Misplaced Objects then concludes with the more intimate and familial collections and recollections of Cuban and Mexican American artists and writers that are contributing to the Latinization of the United States Beautifully illustrated and radically interdisciplinary Misplaced Objects clearly demonstrates that it is not the awed viewer but rather the misplaced object itself that unsettles our certainties allowing new meanings to emerge
