Art Of Trial:

Art Judgements: Art on Trial in Russia after Perestroika Sandra Frimmel, 2022-03-29 An unusually large number of court cases against art artists and curators have taken place in Russia since the turn of the century In reference to two of the most prominent against the organizers of the exhibitions Caution Religion and Forbidden Art 2006 the author examines the ways in which the meaning of art and its socio political effects are argued in court How do these trials attempt to establish a normative concept of art and furthermore a binding juridical understanding of art How is the discussion of what is permissible in art being framed in Russia today Research into the post Soviet art trials has been mainly journal driven until today Only the fairly recent trials of the Pussy Riot activists and Pyotr Pavlensky provoked lengthy publications but these are mostly concerned with explicitly political and activist art rather than its particular discourse when on trial This book however takes a scholarly approach towards Russian art on trial It puts the cases in a national historical context which is compared from international perspectives and particularly focuses on the way in which these proceedings have intensified juridical power over artistic freedom of speech in the production of art in Russia This book will appeal to academics and students in the areas of art history cultural science sociology and Slavic studies as well as jurists curators and museum specialists researchers and employees in cultural institutions

A Europe of Rights Helen Keller, Alec Stone Sweet, 2008 In this book a team of distinguished scholars trace and evaluate comparatively the impact of the ECHR and the European Court of Human Rights on law and politics in eighteen national systems Ireland UK France Germany Italy Spain Belgium Netherlands Norway Sweden Greece Turkey Russia Ukraine Poland Slovakia and Austria Switzerland Although the Court's jurisprudence has provoked significant structural procedural and policy innovation in every State examined its impact varies widely across States and legal domains The book charts this variation and seeks to explain it Across Europe national officials in governments legislatures and judiciaries have chosen to incorporate the ECHR into domestic law and they have developed a host of mechanisms designed to adapt the national legal system to the ECHR as it evolves But how and why State actors have done so varies in important ways and these differences heavily determine the relative status and effectiveness of Convention rights in national systems Although problems persist the book shows that national officials are gradually but inexorably being socialized into a Europe of rights a unique transnational legal space now developing its own logics of political and juridical legitimacy
