Art Treasures for the Nation. Fifty Years of the National Art-Collections Fund. Introduction by the Earl of Crawford and Balcarres, Etc National Art-Collections Fund (Great Britain), David Lindsay Earl of Crawford, 1953 **The Art Treasures of the Nation** Sir Cecil Harcourt-Smith, 1989 *Art Treasures for the Nation* Earl of Crawford, Lord Balcarres, 1953 *Art Treasures for the Nation*, 1953 **Art Treasures for the Nation**, 1953 **Art Treasures for the Nation, 50 Years of the National Art-collections Fund. Introduction by the Earl of Crawford and Balcarres...** Earl of Crawford and Balcarres, 1953 *Art Treasures for the Nation*, 1953 **The Manchester Art Treasures Exhibition of 1857** Elizabeth A. Pergam, 2017-07-05 An overdue study of a groundbreaking event this is the first book length examination of the Manchester Art Treasures Exhibition of 1857 Intended to rehabilitate Manchester's image at a heady time of economic prosperity the Exhibition became a touchstone for aesthetic social and economic issues of the mid nineteenth century Reverberations of this moment can be followed to the present day in the discipline of art history and its practice in public museums of Europe and America Highlighting the tension between art and commerce philanthropy and profit the book examines the Exhibition's organization and the presentation of the works of art in the purpose built Art Treasures Palace Pergam places the Exhibition in the context of contemporary debates about museum architecture and display With an analysis of the reception of both Ancient and Modern paintings the book questions the function of exhibitions in the construction of an art historical canon The book also provides an essential reference tool a compiled list of all of the paintings exhibited in 1857 that are now in public collections throughout the world with an analysis of the collecting trends manifest in their provenance *The Odyssey of China's Imperial Art Treasures* Jeannette Shambaugh Elliot, David Shambaugh, 2015-07-16 The Odyssey of China's Imperial Art Treasures traces the three thousand year history of the emperor's imperial collection from the Bronze Age to the present The tortuous story of these treasures involves a succession of dynasties invasion and conquest and civil war resulting in valiant attempts to rescue and preserve the collection Throughout history different Chinese regimes used the imperial collection to bolster their own political legitimacy domestically and internationally The narrative follows the gradual formation of the Peking Palace Museum in 1925 then its hasty fragmentation as large parts of the collection were moved perilously over long distances to escape wartime destruction and finally its formal division into what are today two Palace Museums one in Beijing the other in Taipei Enlivened by the personalities of those who cared for the collection this textured account of the imperial treasures highlights magnificent artworks and their arduous transit through politics war and diplomatic reconciliations Over the years control of the collections has been fiercely contested from early dynasties through Mongol and Japanese invaders to Nationalist and Communist rivals a saga that continues today This first book length investigation of the imperial collections will be of great interest to China scholars historians and Chinese art specialists Its tales of palace intrigue will fascinate a wide variety of readers The Nation and Its Art Treasures Sir Robert Clermont

Witt,1921 *Stewards of the Nation's Art* Andrea Geddes Poole,2010-01-01 *Stewards of the Nation's Art* examines the internal tensions between Britain's four main public art galleries administrative directors the aristocrats dominating the boards of trustees and those in the Treasury who controlled the funds as well as board appointments **The Home, Nations and Empires, and Ephemeral Exhibition Spaces** Dominique Bauer,Camilla Murgia,2025-10-01 This book explores ephemeral exhibition spaces between 1750 and 1918 The chapters focus on two related spaces the domestic interior and its imagery and exhibitions and museums that display both national imperial identity and the otherness that lurks beyond a country's borders What is revealed is that the same tension operates in these private and public realms namely that between identification and self projection on the one hand and alienation otherness and objectification on the other In uncovering this the authors show that the self the citizen society and the other are realities that are constantly being asserted defined and objectified This takes place they demonstrate in a ceaseless dynamic of projection versus alienation and intimacy versus distancing *Transactions of the National Association for the Promotion of Social Science* National Association for the Promotion of Social Science (Great Britain),1880 The volume for 1886 contains the proceedings of the Conference on temperance legislation London 1886 National Galleries Simon Knell,2016-01-22 Are national galleries different from other kinds of art gallery or museum What value is there for the nation in a collection of international masterpieces How are national galleries involved in the construction national art National Galleries is the first book to undertake a panoramic view of a type of national institution which are sometimes called national museums of fine art that is now found in almost every nation on earth Adopting a richly illustrated globally inclusive comparative view Simon Knell argues that national galleries should not be understood as great galleries but as peculiar sites where art is made to perform in acts of nation building A book that fundamentally rewrites the history of these institutions and encourages the reader to dispense with elitist views of their worth Knell reveals an unseen geography and a rich complexity of performance He considers the ways the national galleries entangle art and nation and the differing trajectories and purposes of international and national art Exploring galleries artists and artworks from around the world National Galleries is an argument about how we think about and study these institutions Privileging the situatedness of each national gallery performance and valuing localism over universalism Knell looks particularly at how national art is constructed and represented He ends with examples that show the mutability of national art and by questioning the necessity of art nationalism *National Museums* Simon Knell,Peter Aronsson,Arne Amundsen,2014-05-22 *National Museums* is the first book to explore the national museum as a cultural institution in a range of contrasting national contexts Composed of new studies of countries that rarely make a showing in the English language studies of museums this book reveals how these national museums have been used to create a sense of national self place the nation in the arts deal with the consequences of political change remake difficult pasts and confront those issues of nationalism ethnicity and multiculturalism which have come to the fore in national politics in recent
