Site Dance Melanie Kloetzel, Carolyn Pavlik, 2013-03-27 In recent years site specific dance has grown in popularity In the wake of groundbreaking work by choreographers who left traditional performance spaces for other venues more and more performances are cropping up on skyscrapers in alleyways on trains on the decks of aircraft carriers and in a myriad of other unexpected locations worldwide In Site Dance the first anthology to examine site specific dance editors Melanie Kloetzel and Carolyn Pavlik explore the work that choreographers create for nontraditional performance spaces and the thinking behind their creative choices Combining interviews with and essays by some of the most prominent and influential practitioners of site dance they look at the challenges and rewards of embracing alternative spaces The close examinations of the work of artists like Meredith Monk Joanna Haigood Stephan Koplowitz Heidi Duckler Ann Carlson and Eiko Otake provide important insights into why choreographers leave the theatre to embrace the challenges of unconventional venues Site Dance also includes more than 80 photographs of site specific performances revealing how the arts and movement in particular can become part of and speak to our everyday lives Celebrating the often unexpected beauty and juxtapositions created by site dance the book is essential reading for anyone curious about the way that these choreographers are changing our experience of the world one step at a time

The Cambridge Companion to Ballet Marion Kant, 2007-06-07 Ballet is a paradox much loved but little studied It is a beautiful fairy tale detached from its origins and unrelated to the men and women who created it Yet ballet has a history little known and rarely presented These great works have dark sides and moral ambiguities not always nor immediately visible The daring and challenging quality of ballet as well as its perceived safe nature is not only one of its fascinations but one of the intriguing

questions to be explored in this Companion The essays reveal the conception intent and underlying meaning of ballets and recreate the historical reality in which they emerged The reader will find new and unexpected aspects of ballet its history and its aesthetics the evolution of plot and narrative new insights into the reality of training the choice of costume and the transformation of an old art in a modern world

Beyond Boundaries Susan E. Alcock,Mariana Egri,James F. D. Frakes,2016-05-01 The Roman Empire had a rich and multifaceted visual culture which was often variegated due to the sprawling geography of its provinces In this remarkable work of scholarship a group of international scholars has come together to find alternative ways to discuss the nature and development of the art and archaeology of the Roman provinces The result is a collection of nineteen compelling essays accompanied by carefully curated visual documentation seven detailed maps and an extensive bibliography organized around the four major themes of provincial contexts tradition and innovation networks and movements and local accents in an imperial context Easy assumptions about provincial dependence on metropolitan models give way to more complicated stories Similarities and divergences in local and regional responses to Rome appear but not always in predictable places and

in far from predictable patterns The authors dismiss entrenched barriers between art and archaeology center and provinces even good art and bad art extending their observations well beyond the empire's boundaries and examining phenomena sites and monuments not often found in books about Roman art history or archaeology The book thus functions to encourage continued critical engagement with how scholars study the material past of the Roman Empire and indeed of imperial systems in general Catalog of the Library of the Museum of Modern Art: Vam - Z Periodicals L.A.
