Art In Focus New York:

Art in Focus Gene A. Mittler,1986 Stanislavsky in Focus Sharon Marie Carnicke,2020-12-14 *Stanislavsky in Focus* brilliantly examines the history and actual premises of Stanislavsky's System separating myth from fact with forensic skill. The first edition of this now classic study showed conclusively how the System was gradually transformed into the Method popularised in the 1950s by Lee Strasberg and the Actor's Studio. It looked at the gap between the original Russian texts and what most English speaking practitioners still imagine to be Stanislavsky's ideas. This thoroughly revised new edition also delves even deeper into the mythical depiction of Stanislavsky as a tyrannical director and teacher, yoga, the mind/body/spirit continuum and its role in the System, how Stanislavsky used subtexts to hide many of his ideas from Soviet censors. The text has been updated to address all of the relevant scholarship particularly in Russia since the first edition was published. It also features an expanded glossary on the System's terminology and its historical exercises as well as more on the political context of Stanislavsky's work, its links with cognitive science and the System's relation to contemporary developments in actor training. It will be a vital part of every practitioner's and historian's library.

Living into Focus Arthur Boers,2012-01-01 In today's high speed culture, there's a prevailing sense that we are busier than ever before and that the pace of life is too rushed. Most of us can relate to the feeling of having too much to do and not enough time for the people and things we value most. We feel fragmented, overwhelmed by busyness and the tyranny of gadgets. Veteran pastor and teacher Arthur Boers offers a critical look at the isolating effects of modern life that have eroded the centralizing, focusing activities that people used to do together. He suggests ways to make our lives healthier and more rewarding by presenting specific individual and communal practices that help us focus on what really matters. These practices, such as shared meals, gardening, hospitality, walking, prayer, and reading aloud, bring our lives into focus and build community. The book includes questions for discernment and application and a foreword by Eugene H. Peterson.

Careers in Focus: Facts on File,2010-05-17 Discusses careers in the arts, describing the history of each position, the education, training, and skills required, the salary range, and the job market outlook.
