The Artist's Garden Jackie Bennett, 2019-10-29 The Artist's Garden will feature up to 20 gardens that have inspired and been home to some of the greatest painters of history These gardens not only supplied the inspiration for creative works but also illuminate the professional motivation and private life of the artists themselves from Cezanne's house in the south of France to Childe Hassam at Celia Thaxter's garden off the coast of Maine Flowers and gardens have often been the first choice for artists looking for a subject A garden close to the artist's studio is not only convenient for daily material and ideas but also has the advantage of changing through the seasons and over time Claude Monet's Giverny was the catalyst for hundreds of great paintings by Monet and other artists each one different from the one before Sometimes a whole village becomes the focus for a colony of artists as at Gerberoy in Picardy and Skagen on the northernmost tip of Denmark This book is about the real homes and gardens that inspired these great artists gardens that can still be visited today The relationship between artist and garden is a complex one A few artists including Pierre Bonnard and his neighbour Monet were keen gardeners as much in love with their plants as their work while for others like Sorolla in Madrid his courtyard home was both a sanctuary and a source of ideas

Cultivating Citizens Lauren Kroiz,2018-04-03 *Cultivating Citizens* rethinks the aesthetics and politics of regionalism in the United States during the 1930s and 1940s During this period painters Grant Wood Thomas Hart Benton and John Steuart Curry formed a loose alliance as American Regionalists

Some lauded their depictions of the rural landscape and hardworking inhabitants of America's midwestern heartland. Others deemed Regionalist painting dangerous regarding its easily understood realism as a vehicle for jingoism, chauvinism, and even fascism. *Cultivating Citizens* shifts the terms of this ongoing debate over subject matter and style by considering heretofore neglected Regionalist programs of art education and concepts of artistic labor. The Business of Watercolour Simon Fenwick, Greg Smith, 2018-12-17 First published in 1997, this volume will revolutionise the study of watercolour painting in Britain. The Royal Watercolour Society archive constitutes a major academic resource covering two hundred years of the history of watercolour painting in Britain. The rediscovery in 1980 of the Jenkins Papers, the early records of the Society, was a major find for the history of British art. The archives are substantial and remarkably comprehensive. Minutes of annual general meetings, Council and committees are all intact. Extraordinarily, the Society's catalogues for its own exhibitions have also survived with details of who bought the pictures and for how much. It contains biographical information on several hundred artists who practised throughout the United Kingdom from the end of the eighteenth century to the present day. Prepared by the archivist to the RWS, Simon Fenwick, this is not just a work of reference but an absorbing book to dip into again and again. The Society of Painters in Water Colours, as it was then titled, was founded in 1804 to promote the interests of painters using watercolour and to provide a platform for members to sell their work. As such, its archives provide an excellent insight into the evolving debate on the status of the artists and their medium and an authoritative account of the way in which watercolour paintings were sold, distributed, and acquired. The substantial introduction by Greg Smith surveys some of the purposes and practices of watercolour from 1750 to the present day and highlights key issues many yet to be examined relating to the study of watercolour. His survey is arranged around a number of topics including the notion of watercolour as a British art, collecting and display, book illustration, architectural drawing, map making, and topography, antiquarian studies, decorative arts, printmaking, portrait miniatures, and drawings, amateur practices, and the changing status of the sketch.

Survival Notes Lydia R. Figes, 2025-09-11 *Survival Notes* is an inspiring narrative weaving artists' reflections on success with advice to aspiring creatives. Featuring direct quotes and exclusive interviews with internationally acclaimed artists such as Anish Kapoor, Shirin Neshat, Tracey Emin, Jesse Darling, and Shahzia Sikander, this book offers authoritative counsel on how to thrive in a highly competitive art world as well as thoughtful insights on what it means to be an artist in the twenty-first century. Nine thematic chapters offer essential guidance on how to negotiate the practical realities of artmaking, with discussions relating to education, self-discipline, gallery representation, mental wellbeing, mentorship, and more. In a climate where emerging creatives feel less empowered than ever, Lydia R. Figes provides a hopeful message about perseverance and perspective while questioning whether the advice given by established practitioners can still be applied today.
