Guay, Jane Burnette, 2024-09-30 This second edition of *Reaching and Teaching Students with Special Needs Through Art* is written for art educators, special educators and those who value the arts for students with special needs. The revised second edition provides updated chapters addressing students with emotional/behavioral disabilities, learning disabilities, intellectual disabilities, physical disabilities and visual and hearing impairments. The newly revised second edition includes chapters on students with autism spectrum disorder, preschool students and students experiencing trauma. All chapters have been updated to include current definitions and language, recommended teaching strategies, art lesson adaptations, behavior management strategies and references to related chapters. Follow-up activities are provided for further insights into each group of students. A new summary chapter connects how the authors' collaborations resulted in changes to two professional organizations. Since the first edition, many of the featured authors established the new Division of Visual and Performing Arts Education (DARTS) at the Council for Exceptional Children (CEC) and earlier formed a new National Art Education Association (NAEA) Interest group, Special Needs in Art Education (SNAE) now Arts in Special Education (ASE). This new edition, offering mostly entirely new chapters, provides an accessible, fully updated guide to the world of academic art and design libraries from a range of international experts who reflect current practice at a global level. Coverage includes case studies and library profiles providing benchmarks for developing facilities, teaching and learning including the ACRL Framework, teaching with special collections, meta-literacies, instructional design and cultural differences, developments in institutional repositories, digital humanities and makerspaces, contemporary library design spaces for collaboration and sustainability.
