Art Works Perform:

Art and Knowledge James O. Young, 2003-09-02 Almost all of us would agree that the experience of art is deeply rewarding Why this is the case remains a puzzle nor does it explain why many of us find works of art much more important than other sources of pleasure Art and Knowledge argues that the experience of art is so rewarding because it can be an important source of knowledge about ourselves and our relation to each other and to the world The view that art is a source of knowledge can be traced as far back as Aristotle and Horace Artists as various as Tasso Sidney Henry James and Mendelssohn have believed that art contributes to knowledge As attractive as this view may be it has never been satisfactorily defended either by artists or philosophers Art and Knowledge reflects on the essence of art and argues that it ought to provide insight as well as pleasure It argues that all the arts including music are importantly representational This kind of representation is fundamentally different from that found in the sciences but it can provide insights as important and profound as available from the sciences Once we recognise that works of art can contribute to knowledge we can avoid thorough relativism about aesthetic value and we can be in a position to evaluate the avant garde art of the past 100 years Art and Knowledge is an exceptionally clear and interesting as well as controversial exploration of what art is and why it is valuable It will be of interest to all philosophers of art artists and art critics

An Ontology of Multiple Artworks David Davies, 2024 David Davies examines the ontology of multiple artworks such as books and musical performances He argues against a theory of multiple works as types that are independent of creative and appreciative acts instead defending a view on which they are performances essentially embedded in artistic practices Art Works! Performing Pedagogy Charles R. Garoian, 1999-09-30 Performing Pedagogy examines the theory and practice of performance art as an art of politics It discusses the different ways in which performance artists use memory and cultural history to critique dominant cultural assumptions to construct identity and to attain political agency In doing so Garoian argues performance artists like Rachel Rosenthal Guillermo G mez Pe a Robbie McCauley Suzanne Lacy and the performance art collective Goat Island engage in the practice of critical citizenship and radical forms of democracy that have significant implications for teaching in the schools Finally Garoian contextualizes performance art pedagogy within his own cultural work to illustrate how his own memory and cultural history have informed his production of performance art works and his classroom teaching practices *The Perpetuation of Site-Specific Installation Artworks in Museums* Tatja Scholte, 2025-10-01 Site specific installations are created for specific locations and are usually intended as temporary

artworks The Perpetuation of Site Specific Installation Artworks in Museums Staging Contemporary Art shows that these artworks consist of more than a singular manifestation and that their lifespan is often extended In this book Tatja Scholte offers an in depth account of the artistic production of the last forty years With a wealth of case studies the author illuminates the diversity of site specific art in both form and content as well as in the conservation strategies applied A conceptual framework is provided for scholars and museum professionals to better understand how site specific installations gain new meanings during successive stages of their biographies and may become agents for change in professional routines

Art as Performance Dave Davies, 2008-04-15 In this richly argued and provocative book David Davies elaborates and defends a broad conceptual framework for thinking about the arts that reveals important continuities and discontinuities between traditional and modern art and between different artistic disciplines Elaborates and defends a broad conceptual framework for thinking about the arts Offers a provocative view about the kinds of things that artworks are and how they are to be understood Reveals important continuities and discontinuities between traditional and modern art Highlights core topics in aesthetics and art theory including traditional theories about the nature of art aesthetic appreciation artistic intentions performance and artistic meaning *The Performance of Reading* Peter Kivy, 2008-04-15 The Performance of Reading argues that there are distinct analogies between silent reading and artistic performance and so fashions the new role of the reader as performer An original and insightful exploration of the act of reading by the leading scholar in the field Discusses the history of reading and the transitions from reading aloud to reading silently and the changing role of literature as communal active experience to a more private endeavor **Performance Art in China** Thomas J. Berghuis, 2006

Performance Art in China takes as its subject one of the most dynamic and controversial areas of experimental art practice in China In his comprehensive study Sydney based theorist and art historian Thomas J Berghuis introduces and investigates the idea of the role of the mediated subject of the acting body in art a notion grounded in the realization that the body is always present in art practice as well as its subsequent secondary representations Through a series of in depth case studies Berghuis reveals how during the past 25 years Chinese performance artists have acted out their art often in opposition to the principles governing correct behavior in the public domain In addition to a 25 year chronology of events a systematic index of places names and key terms as well as a bibliography and a glossary in English and Chinese this study also offers the reader numerous previously unpublished photos and documents **Reconstructing Performance Art** Tancredi

Gusman, 2023-05-26 This book investigates the practices of reconstructing and representing performance art and their power to shape this art form and our understanding of it Performance art emerged internationally between the 1960s and 1970s crossing disciplinary boundaries between performing arts and visual arts Because of the challenge it posed to the ontologies and paradigms of these fields performance art has since stimulated an ongoing debate on the most appropriate means to document preserve and display it Tancredi Gusman brings together international scholars from different disciplinary fields to

Art and Abstract Objects Christy Mag Uidhir, 2013-01-17 *Art and Abstract Objects* presents a lively philosophical exchange between the philosophy of art and the core areas of philosophy The standard way of thinking about non repeatable single instance artworks such as paintings drawings and non cast sculpture is that they are concrete i e material causally efficacious located in space and time Da Vinci s Mona Lisa is currently located in Paris Richard Serra s Tilted Arc is 73 tonnes of solid steel Johannes Vermeer s The Concert was stolen in 1990 and remains missing Michaelangelo s David was attacked with a hammer in 1991 By contrast the standard way of thinking about repeatable multiple instance artworks such as novels poems plays operas films symphonies is that they must be abstract i e immaterial causally inert outside space time consider the current location of Melville s Moby Dick the weight of Yeats Sailing to Byzantium or how one might go about stealing Puccini s La Boh me or vandalizing Mozart s Piano Concerto No 9 Although novels poems and symphonies may appear radically unlike stock abstract objects such as numbers sets and propositions most philosophers of art think that for the basic intuitions practices and conventions surrounding such works to be preserved repeatable artworks must be abstracta This volume examines how philosophical enquiry into art might itself productively inform or be productively informed by enquiry into abstracta taking place within not just metaphysics but also the philosophy of mathematics epistemology philosophy of science and philosophy of mind and language While the contributors chiefly focus on the relationship between philosophy of art and contemporary metaphysics with respect to the overlap issue of abstracta they provide a methodological blueprint from which scholars working both within and beyond philosophy of art can begin building responsible mutually informative and productive relationships between their respective fields
