imagined contested and mediated in the public forum of advice literature. It interrogates the construction and negotiation of aesthetic femininity and domestic modernity within the larger contexts of the New Journalism, the New Art Criticism, a new girls culture and the emerging New Woman phenomenon in Britain. This book presents extensive new research on women authored advice literature including domestic advice manuals, home decoration books and periodicals for young girls and adult women within the discourse of household art. Part One justifies girls' presence in the cultivation of beauty and taste at home. The practice of home decoration can be appropriated as a mode of agency and subjectivity for a girl to articulate her own voice and specific positioning as she grows toward womanhood. Part Two uncovers the ways in which advice literature serves as a mediator of decorating practices to help foster the affinities between gentlewomen's domestic bodies and decorated interiors. Aimed at an interdisciplinary audience, this book adds to the growing body of scholarship on the studies of home cultures, art and interior design, nineteenth-century studies and the social history of women.

Art Wars Rachel N. Klein, 2020-06-19. A study of three controversies that illuminate the changing cultural role of art exhibition in the nineteenth century. From the antebellum era through the Gilded Age, New York City's leading art institutions were lightning rods for conflict. In the decades before the Civil War, art promoters believed that aesthetic taste could foster national unity and assuage urban conflicts; by the 1880s, such hopes had faded and the taste for art assumed more personal connotations associated with consumption and domestic decoration. *Art Wars* chronicles three protracted public battles that marked this transformation. The first battle began in 1849 and resulted in the downfall of the American Art Union, the most popular and influential art institution in North America at mid-century. The second erupted in 1880 over the Metropolitan Museum's massive collection of Cypriot antiquities, which had been plundered and sold to its trustees by the man who became the museum's first paid director. The third escalated in the mid-1880s and forced the Metropolitan Museum to open its doors on Sunday, the only day when working people were able to attend. In chronicling these disputes, Rachel N. Klein considers cultural fissures that ran much deeper than the specific complaints that landed protagonists in court. New York's major nineteenth-century art institutions came under intense scrutiny not only because Americans invested them with moral and civic consequences but also because they were part and parcel of explosive processes associated with the rise of industrial capitalism. Elite New Yorkers spearheaded the creation of the Art Union and the Metropolitan, but those institutions became enmeshed in popular struggles related to slavery, immigration, race, industrial production and the rights of working people. *Art Wars* examines popular engagement with New York's art institutions and illuminates the changing cultural role of art exhibition over the course of the nineteenth century.
