Crafting the Third World Joseph L. Love, 2022 *Crafting the Third World* Joseph LeRoy Love, 1996 This innovative study compares the history of economic ideas and ideologies in Romania and Brazil and more broadly those in East Central Europe and Latin America in the late nineteenth and twentieth centuries Whereas previous histories of the idea of economic development have focused on First World theorists this book considers theorists in two backward countries who made important contributions to the field Latin America is well known to economic historians as the region that gave rise to the Structuralist school and Dependency movement Less well known is the fact that East Central Europe is important as the early training ground and the empirical concern of the first generation of development economists This comparative study examines the ways in which economists and other social scientists in Romania and Brazil confronted the issues of economic backwardness **Latin American Dictatorships in the Era of Fascism** António Costa Pinto, 2019-06-14 Latin American Dictatorships in the Era of Fascism focuses on the reverse wave of dictatorships that emerged in Latin America during the 1930s and the transnational dissemination of authoritarian institutions in the era of fascism António Costa Pinto revisits the study of authoritarian alternatives to liberal democracy in 1930s Latin America from the perspective of the diffusion of corporatism in the world of inter war dictatorships The book explores what drove the horizontal spread of corporatism in Latin America the processes and direction of transnational diffusion and how social and political corporatism became a central set of new institutions utilized by dictatorships during this era These issues are studied through a transnational and comparative research design to reveal the extent of Latin America's participation during the corporatist wave which by 1942 had significantly reduced the number of democratic regimes in the world This book is essential reading for students studying Latin American history 1930s dictatorships and authoritarianism and the spread of corporatism **A América Latina na era do fascismo** António Costa Pinto, 2022-08-22 Este livro revisita o estudo das alternativas autoritárias democracia liberal na América Latina na década de 1930 a partir da perspectiva da difusão do corporativismo no mundo das ditaduras de entreguerras e entre as elites autoritárias Adotando um modelo transnacional e comparativo procura responder às seguintes questões: o que impulsionou a propagação do corporativismo na América Latina Quais processos de difusão transnacional foram postos em marcha Como o corporativismo social e político se tornou um conjunto de instituições criadas pelas ditaduras dos anos 1930 Em que tipo de conjunturas críticas foram elas adotadas relevante observar que as interações transnacionais entre ditaduras e ideologias corporativas geraram um amplo campo de circulação das ideias e práticas que configuraram a experiência das ditaduras de entreguerras a uma escala maior do que anteriormente se presumia *Forthcoming Books* Rose Army, 1996-06 **International Encyclopedia of the Social & Behavioral Sciences** Neil J. Encountering Development Arturo Escobar,2001-02-15 How did the industrialized nations of North America and Europe come to be seen as the appropriate models for post World War II societies in Asia Africa and Latin America How did the postwar discourse on development actually create the so called Third World And what will happen when development ideology collapses To answer these questions Arturo Escobar shows how development policies became mechanisms of control that were just as pervasive and effective as their colonial counterparts The development apparatus generated categories powerful enough to shape the thinking even of its occasional critics while poverty and hunger became widespread Development was not even partially deconstructed until the 1980s when new tools for analyzing the representation of social reality were applied to specific Third World cases Here Escobar deploys these new techniques in a provocative analysis of development discourse and practice in general concluding with a discussion of alternative visions for a postdevelopment era Escobar emphasizes the role of economists in development discourse his case study of Colombia demonstrates that the economization of food resulted in ambitious plans and more hunger To depict the production of knowledge and power in other development fields the author shows how peasants women and nature became objects of knowledge and targets of power under the gaze of experts **Development and Underdevelopment** John Peter Cole,1991 **Political Change and Underdevelopment** Vicky Randall,Robin Theobald,1985 The need for theory Out from Underdevelopment James H.
