Race J. Kameron Carter, 2008-09-02 In Race A Theological Account J Kameron Carter meditates on the multiple legacies implicated in the production of a racialized world and that still mark how we function in it and think about ourselves These are the legacies of colonialism and empire political theories of the state anthropological theories of the human and philosophy itself from the eighteenth century Enlightenment to the present Carter's claim is that Christian theology and the signal transformation it along with Christianity underwent is at the heart of these legacies In that transformation Christian anti Judaism biologized itself so as to racialize itself As a result and with the legitimization of Christian theology Christianity became the cultural property of the West the religious ground of white supremacy and global hegemony In short Christianity became white The racial imagination is thus a particular kind of theological problem Not content only to describe this problem Carter constructs a way forward for Christian theology Through engagement with figures as disparate in outlook and as varied across the historical landscape as Immanuel Kant Frederick Douglass Jarena Lee Michel Foucault Cornel West Albert Raboteau Charles Long James Cone Irenaeus of Lyons Gregory of Nyssa and Maximus the Confessor Carter reorients the whole of Christian theology bringing it into the twenty first century Neither a simple reiteration of Black Theology nor another expression of the new theological orthodoxies this groundbreaking book will be a major contribution to contemporary Christian theology with ramifications in other areas of the humanities

Because of Race Mica Pollock, 2010-10-25 In *Because of Race* Mica Pollock tackles a long standing and fraught debate over racial inequalities in America's schools. Which denials of opportunity experienced by students of color should be remedied? Pollock exposes raw real time arguments over what inequalities of opportunity based on race in our schools look like today and what if anything various Americans should do about it. Pollock encountered these debates while working at the U.S. Department of Education's Office for Civil Rights in 1999-2001. For more than two years she listened to hundreds of parents, advocates, educators, and federal employees talk about the educational treatment of children and youth in specific schools and districts. People debated how children were spoken to, disciplined, and ignored in both segregated and desegregated districts and how children were afforded or denied basic resources and opportunities to learn. Pollock discusses four rebuttals that greeted demands for everyday justice for students of color inside schools and districts. She explores how debates over daily opportunity provision exposed conflicting analyses of opportunity denial and harm worth remedying. *Because of Race* lays bare our habits of argument and offers concrete suggestions for arguing more successfully toward equal opportunity.
