Crazy Lady:

What Women Want Gayle Graham Yates, 1975 The women s movement is perhaps the most baffling of the recent social reforms to sweep the United States It is composed of numerous distinct groups each with specific interests and goals each with individual leaders and literature What are the philosophies behind these groups Who are their leaders and how have their ideas evolved Do they have a vital connection with the women s movement of the past And where are feminist groups headed In this study that brilliantly illuminates the literature and purposes of feminists What Women Want The Ideas of the Movement Gayle Graham Yates has produced the first comprehensive history of feminist women s groups Concentrating chiefly on the movement from 1959 to 1973 when it erupted in such activist groups as the National Organization for Women NOW the Women s Equity Action League WEAL and the National Women s Political Caucus NWPC the author analyzes in detail their literature factions and issues Her survey encompasses virtually every major expression of the movement s multiple facets from The Feminine Mystique Born Female and Sexual Politics to Sex and the Single Girl and Memoirs of an Ex Prom Queen In a significant breakthrough the author discerns the pattern underlying this diversity which should contribute to a fuller understanding of future developments in the women s struggle She accomplishes this by identifying three key attitudes informing the movement the feminist the women s liberationist and the androgynous or cooperative male female relationship The author provides a sensitive yet critical analysis of the chief spokeswomen in contemporary America activists like Gloria Steinem Shulamith Firestone and Ti Grace Atkinson She treats each of the feminist ideologies with balance and respect yet is refreshingly unafraid to criticize new developments She bolsters her own conclusions in support of an androgynous or equal sexual society with a judicious spirit Scholars and the general public alike will find Yates s book not only an indispensable contribution to women s studies but also a strong and timely addition to contemporary American life and thought

Auction of Emotions Yasir Monon, 2018-04-22 This collection of short stories is an attempt at painting the closest possible picture of the daily lives of people from the author s part of the world Various social topics and stigmas have been portrayed here through the emotions and stories of the characters in this short stories collection The objective of this presentation does not lie towards influence but rather on the direction of acquaintance A few of the stories are inspired from true events whereas others are pure work of fiction derived from everyday information However the issues addressed are as real as the day is true

The author only hopes to make sure that whichever the story may be the readers are touched by them and relate somehow with their own lives In addition the translator has been careful of keeping the real flavor of the stories intact while trying to successfully tell these tales in a foreign language Her only hope is for the forgiving heart of the readers should they run into any transliteration mistakes *Merchant Vessels of the United States ...
