On Personal Space, the Traversable Self, and the Happily Ever Experience Lisa Pavlik-Malone, 2022-01-27 This book explores the symbolic relationship between personal space and the Cinderella fairy tale It characterizes personal space as having couched within it the traversable self with a highly individual rather idiosyncratic portion of this space comprised of neurocognitive memory content of an intra personally deep highly satisfying nature It can be said that such nuanced associations are the essence of the happily ever personal experience This book will be of interest to scholars and other researchers concerned with how cognition including psychology and the brain psychology and literature philosophy of mind and metaphor might relate specifically to understanding personal space as well as how it might be characterized within the context of a most shoe centric fairy tale

Deconstructing Dreamscapes of Femininity Lisa Pavlik-Malone, 2024-03-13 This book explores the cognitive inter dynamics of two overarching dimensions of human consciousness referred to as This World and The Otherworld respectively Together these dimensions may create for any developing girl a more or less unique experience of the archetype referred to here as Lolita in the Mist This mist may be a vital detail of Lolita imagery for an individual girl feeling protected enough to explore her budding sexuality in This World that is conjured to a significant degree through The Otherworld dimension Indeed such imagery may be a part of what dreaming experienced in waking life is made of The book will be of interest to scholars and other researchers interested in how visual and social perceptual processes principally through film imagery might create a more phenomenological experience of the archetype through the interplay between This World and The Otherworld as each exists within all of us

Is Necessity Or Ability the Mother of Invention? Hillary Colleen Sinclair, 2004

Walt Whitman's Multitudes Jason Stacy, 2008 In the fifteen years before the publication of *Leaves of Grass* 1855 Walt Whitman constructed three authoritative voices by which he engaged the upheavals endemic to the Industrial Revolution Through these public personas found mostly in his journalism Whitman offered remedies for American artisans who had lost their economic autonomy and status Instead of attacking broad forces beyond worker control Whitman blamed artisans for oppressing themselves through the temptations of consumerism and affectation Walt Whitman's *Multitudes* places the first edition of *Leaves of Grass* on par with Whitman's journalism and exposes a writer different from most poetry directed analyses In doing so it traces Whitman's public voice as he wrestled intimately with the debates of his day conspicuous consumption nativism slavery and through it all labor and the status of the new working class

Icelandic Men and Me Robert Faulkner, 2019-10-28 A sparsely populated island in the North Atlantic recently made worldwide headlines in the Global Financial Crisis and for volcanic eruptions that caused unprecedented chaos to international air travel Large contemporary audiences have formed very different images of Iceland through the vocal music and music videos of Björk and Sigur Rós Just below the Arctic Circle Icelandic men engage in more everyday vocal practices where singing literally for one's Self is an everyday life skill set against a backdrop of unique natural historical economic and social phenomena Their sagas of song and singing are the subject of this book The original Icelandic Sagas among the most important collections of medieval European literature are valued for richly detailed portrayals of individual lives This book's principle protagonists and collaborators share a heritage where Sagas remain central to national and local identity While the oral traditions associated with them were largely overwhelmed by European romanticism just over a hundred years ago ironically this new vocal music became a key technology for national renewal Written by an immigrant musician who lived in a remote Icelandic community for over twenty years this volume focuses upon individual and collective stories about singing as personal and social work Drawing upon everyday ethnographic and sociological studies of music and emerging discourse about musical identity the study uses anthropological historical and musicological evidence in thinking about songs singing and Self and the
