Creating Organizational Advantage:

Creating Organizational Advantage Colin Egan, 2012-05-23 Creating Organizational Advantage presents a critical appraisal of fashions and fads in management theory. It exposes the strategic weaknesses of change programmes such as Total Quality Management and Business Process Re Engineering and explains why so many companies fail to become market led or customer focused. An examination of global competitive forces and the internationalization pressures faced by companies provides insight into key strategic challenges as we approach the 21st century. Creating Organizational Advantage analyses how globalization is forcing organizations to address their strategic sloppiness, why companies seek panacea solutions to basic business problems, the strategic dimensions of organizational change programmes, the role of joint ventures and strategic alliances in compensating for shortfalls in core competencies. These key themes are integrated within a framework which proposes balanced solutions for organizational survival and strategic prosperity. Many of the ideas for the book came from the author's research consultancy and executive development experience with international organizations including Bass Taverns, British Steel, BT, Burmah Castrol, Cadbury Schweppes, CAMAS, Coopers Lybrand, Coral, ECC, GPT, Grace Dearborn, Hitachi, Kodak, KPMG, Lucas Aerospace, Northern Telecom, Philips, Raychem, Reed Elsevier, Rolls Royce plc, Shell Chemicals, Siemens, Nixdorf.

Systems Thinking Strategy Jimmy Brown PhD, 2012-11-26 Why are some organizations more successful than others Is it better products Is it a superior service model Is it some mixture of the two Is it merely a matter of lining up the products and services to meet the needs of the marketplace at a particular time Or did they just get lucky Many business leaders believe that the answer to these questions is a matter of strategy Find the right strategy and the company is bound to be successful Unfortunately too many organizations fail to find that right strategy The question is why Do they not go on enough executive retreats Did they hire the wrong consultants Were their PowerPoint slides just now powerful enough While any of these factors could be a contributor our research shows that the real driver is strategy efforts focusing too much on singular dimensions e g the competition rather than considering the entire ecosystem Without a full view of the complete business environment it is impossible to make fully informed decisions Without being fully informed we risk making the wrong choices The Systems Thinking Strategy addresses this issue by providing a holistic approach that incorporates multiple domains into the strategy discussion It allows us to understand how our Capabilities our Customers and the Competitive Environment are all impacting our business success It then provides an approach to making sense of those disparate data points so that we can make the right decisions to drive business success
