Creating The Zhuang Ethnic Politics In China:

Creating the Zhuang Katherine Palmer Kaup, 2000 Often dismissed by scholars as being no different than the Han majority of China the Zhuang of Guangxi were recognized by Chinese rulers for the first time when the Chinese Communist Party CCP offered them their own autonomous region Kaup political science Furman U analyzes the decision to recognize and effectively create the Zhuang identity by the CCP as an effort to shape regional and ethnic loyalties towards integration with the centralized state Discussing how Zhuang grassroots movements came into being as the CCP withdrew support for special treatment she finds that calls for integration from the Zhuang has increased Annotation copyrighted by Book News Inc Portland OR

Creating the Zhuang Katherine Palmer Kaup, 2000 *Creating the Zhuang* Katherine Ellyson Palmer, 1997 **Politics in China** William A. Joseph, 2014 On October 1 2009 the People's Republic of China PRC celebrated the 60th anniversary of its founding And what an eventful and tumultuous six decades it had been During that time under the leadership of the Chinese Communist Party CCP China was transformed from one of the world's poorest countries into the world's fastest growing major economy and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence Over those same years the PRC also experienced the most deadly famine in human history caused largely by the actions and inactions of its political leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy Today China is for the most part peaceful prospering and proud This is the China that was on display for the world to see during the Beijing Olympics in 2008 The CCP maintains a firm grip on power through a combination of popular support largely based on its recent record of promoting rapid economic growth and harsh repression of political opposition Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities and a rising tide of social protest *Politics in China* is an authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today Written by leading China scholars the book's chapters offers accessible overviews of major periods in China's modern political history from the mid nineteenth century to the present key topics in contemporary Chinese politics and developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan *Handbook on Ethnic Minorities in China* Xiaowei Zang, 2016-11-25 This much needed volume explains who ethnic minorities are and how well do they do in China In addition to offering general information about ethnic minority groups in China it discusses some important issues around ethnicity including ethnic inequality minority rights and multiculturalism Drawing on insights and perspectives from scholars in different continents the contributions provide critical reflections on where the field has been and where it is going offering readers possible directions for future research on minority ethnicity in China The Handbook reviews research and addresses key conceptual theoretical and methodological issues in the study of ethnicity in China

Famine Politics in Maoist China and the Soviet Union Felix Wemheuer, 2014-06-24 During the twentieth century 80 percent of all famine victims worldwide died in China and the Soviet Union In this rigorous and thoughtful study Felix Wemheuer analyzes the historical and political roots of these socialist era famines in which overambitious industrial programs endorsed by Stalin and Mao Zedong created greater disasters than those suffered under prerevolutionary regimes Focusing on famine as a political tool Wemheuer systematically exposes how conflicts about food among peasants urban populations and the socialist state resulted in the starvation death of millions A major contribution to Chinese and Soviet history this provocative analysis examines the long term effects of the great famines on the relationship between the state and its citizens and argues that the lessons governments learned from the catastrophes enabled them to overcome famine in their later decades of rule

The Making of the Chinese State Leo K. Shin, 2006-07-03 In this well crafted study of the relationships between the state and its borderlands Leo Shin traces the roots of China's modern ethnic configurations to the Ming dynasty 1368 1644 Challenging the traditional view that China's expansion was primarily an exercise of incorporation and assimilation Shin argues that as the centre extended its reach to the wild and inaccessible south the political interests of the state the economic needs of the settlers and the imaginations of the cultural elites all facilitated the demarcation and categorisation of these borderland non Chinese populations The story told here however extends beyond the imperial period Just as Ming emperors considered it essential to reinforce a sense of universal order by demarcating the non Chinese modern day Chinese rulers also find it critical to maintain the myth of a unified multi national state by officially recognising a total of fifty six nationalities

Governing China's Multiethnic Frontiers Morris Rossabi, 2004 Leading scholars examine the Chinese government's administration of its ethnic minority regions particularly border areas where ethnicity is at times a volatile issue and where separatist movements are feared Chapters focus on the Muslim Hui multiethnic southwest China Inner Mongolia Xinjiang and Tibet Together these studies provide an overview of government relations with key minority populations against which one can view evolving dialogues and disputes Contributors are Gardner Bovington David Bachman Uradyn E Bulag Melvyn C Goldstein Mette Halskov Hansen Matthew T Kapstein and Jonathan Lipman

Red God Xiaorong Han,2014-11-06 Robin Hood style revolutionary Wei Baqun is often described as one of China s three great peasant leaders alongside Mao Zedong and Peng Pai In his home county of Donglan where he started organizing peasants in the early 1920s Wei Baqun came to be considered a demigod after his death a communist revolutionary with supernatural powers So much legend has grown up around this fascinating figure that it is difficult to know the truth from the tale Presenting Wei Baqun s life in light of interactions between his local community and the Chinese nation Red God is organized around the journeys he made from his multiethnic frontier county to major cities where he picked up ideas methods and contacts and around the three revolts he launched back home Xiaorong Han explores the congruencies and conflicts of local regional and national forces at play during Wei Baqun s lifetime while examining his role as a link between his Zhuang people and the Han majority between the village and the city and between the periphery and the center

Identity and Schooling Among the Naxi Haibo Yu,2010-01-01 Identity and Schooling among the Naxi examines the identity construction of Naxi students in Lijiang No 1 Senior Secondary School in China focusing on the changing roles of school community and family in the identity construction of the students Through participant observation interviews and student essays Yu finds that Naxi students of the school retain a strong Naxi identity while also managing to fit into mainstream culture through a process she characterizes as harmonious creative identity engagement Three main forces affecting the identity construction of the Naxi students are highlighted the state and the school Naxi intellectuals and socialization in the family and community As an institution of the state the school conveys

national ideology and instills a sense of ethnic unity and an understanding of the culture of the Chinese nation. However, the school also takes an active role in ethnic identity construction of the Naxi students. At the same time, Naxi intellectuals, through their research publications and responses to state policies, preserve and revitalize Naxi culture. Socialization within the community and family allows the Naxi students to learn about their heritage. These factors result in both an asserted and assigned identity of the Naxi.
