Three Views on Creation and Evolution James Porter Moreland, John Mark Reynolds, 1999 Three views on creation and evolution are presented in this popular format whereby the contributors provide their own articles and respond to those of their peers **Creation and Doxology** Gerald L. Hiestand, Todd Wilson, 2018-10-23 What does it mean to both affirm the goodness of God's creation and anticipate the new creation Bringing together contributions from church leaders academic theologians and scientists on the doctrine of creation this volume engages with Scripture scientific theory church history and current issues to help Christians understand the beginning and ending of God's good creation **The Fourth Day** Howard J. Van Till, 1986 Tries to combine the biblical and scientific views of the universe's creation and looks at how perception of the world has changed from biblical times to the present **Evolutionary Creation** Denis O Lamoureux, 2009-02-26 In this provocative book evolutionist and evangelical Christian Denis O Lamoureux proposes an approach to origins that moves beyond the evolution versus creation debate **Old-Earth or Evolutionary Creation?** Kenneth Keathley, J. B. Stump, Joe Aguirre, 2017-07-18 Christians confess that God created the heavens and the earth But just how did he do it and does the Bible give us a scientifically accurate account Listen in as representatives from Reasons to Believe old earth creation and BioLogos evolutionary creation engage in charitable dialogue on questions of creation and evolution **Christians and Evolution** R J Berry, 2014-11-19 The debate surrounding creation and evolution divides Christians particularly evangelicals It has been a stumbling block for young Christians and a point of contention for the new Atheists Professor R J Berry assembles a wide range of distinguished contributors all convinced committed and orthodox Christian believers each of whom has undertaken a conceptual journey based on sound science and careful theology from a creationist position to one in which God's creation and the processes of evolution are properly and credibly integrated Christians and Evolution is a luminous volume that offers a pathway for doubters sceptics and conservative Christians to embrace the overall scientific consensus of the evolutionary approach while holding solidly and without reservation to the doctrines of God's creation and God's omnipotence This text is a must read for anyone interested in the creation v evolution debate **Creation and Evolution** Derek Burke, 1985 **Evolution on British Television and Radio** Alexander Hall, 2021-09-30 This book charts the history of how biological evolution has been depicted on British television and radio from the first radio broadcast on evolution in 1925 through to the 150th anniversary of Charles Darwin's Origin of the Species in 2009 Going beyond science documentaries the chapters deal with a broad range of broadcasting content to explore evolutionary themes in radio dramas educational content and science fiction shows like Doctor Who The book makes the case that the dominant use in science broadcasting of the evolutionary epic a narrative based on a progressive vision of scientific endeavour is part of the wider development of a standardised way of speaking about science in society during the 20th century In covering the diverse range of approaches to depicting evolution used in British productions the book demonstrates how their success had a global

influence on the genres and formats of science broadcasting used today

Laying Down Arms to Heal the Creation-Evolution Divide Gary N. Fugle, 2015-01-01 Battles over creation or evolution have been perpetuated for years by vocal Christians and scientists alike But conflict has never been the only choice Laying Down Arms to Heal the Creation Evolution Divide presents a comprehensive uplifting alternative that brings together an orthodox biblical view of a sovereign Creator God and the meaningful discoveries of modern evolutionary biology Gary Fugle offers unique insights into this debate from his dual perspective as both an award winning biology professor and a committed leader in conservative evangelical churches In focusing on the stumbling blocks that surround creation and evolution debates Fugle sensitively addresses the concerns of skeptical Christians and demonstrates how believers may celebrate evolution as a remarkable aspect of God's glory He describes how the mainstream scientific community as well as numerous Christians may alter current approaches to eliminate conflicts He explains conservative readings of early Genesis that respect both the inerrant words of Scripture and the evolutionary revelations in God's natural creation This book is for individuals who sense that biblical Christian faith and evolution are compatible without compromising core convictions If given good reasons to do so are we willing to lay down our arms to affirm an encompassing vision for the future

life and ministry of Jesus Christ Explorations in Neuroscience, Psychology and Religion Kevin S. Seybold, 2016-04-15 In the 1990s great strides were taken in clarifying how the brain is involved in behaviors that in the past had seldom been studied by neuroscientists or psychologists This book explores the progress begun during that momentous decade in understanding why we behave think and feel the way we do especially in those areas that interface with religion What is happening in the brain when we have a religious experience Is the soul a product of the mind which is in turn a product of the brain If so what are the implications for the Christian belief in an afterlife If God created humans for the purpose of having a relationship with him should we expect to find that our spirituality is a biologically evolved human trait What effect might a disease such as Alzheimer's have on a person's spirituality and relationship with God Neuroscience and psychology are providing information relevant to each of these questions and many Christians are worried that their religious beliefs are being threatened by this research Kevin Seybold attempts to put their concerns to rest by presenting some of the scientific findings coming from these disciplines in a way that is understandable yet non-threatening to Christian belief **Founding a Faith** Thomas E. Gaston, 2020-11-03 What do you think when you hear the word faith Do you think of deep spiritual connections or irrational will to believe What even is faith how does it work and what is it founded on This book might help you answer some of these questions as it explores the interplay between faith and beliefs the foundations of religious beliefs and how someone might go from having no faith to having a faith If you are interested in faith and spirituality and let's face it you are interested enough to read the back cover of this book but don't know what that might mean then this book might be for you I hope it will help you discover what faith means and how you might explore whether it is for you If you have a faith but are struggling with doubts or uncertainties if you are feeling untethered and in need of a foundation then this book might be for you I hope it will help you find the next chapter of your faith a faith that is open to questions and flexible to challenges

Virgins, Harlots and Sex David Chesney, 2011-02-14 AN Earthy Look At Christianity Many biblical terms have a consistent symbolic significance from Genesis to Revelation eg nudity light and darkness virgins harlots Nudity occurs in three of the most significant events in the whole Bible and in every case it is best understood symbolically This book demonstrates that symbolism is so powerful it can for example change the status of Isaiah's virgin birth prophecy from an absurdity to an astonishing fulfilment of prophecy Harlots described in the book as God's warning lights also figure very prominently in the biblical coverage of both Jews and Christians Another key theme is to show that the raw seed concepts of the Hebrew Bible evolve so neatly into the Christian New Testament viewpoint over a 1000 years that readers may conclude uninspired biblical script writers could not have organized it Here are some quotes from the book that introduce intriguing and or provocative new trains of thought 1 If you think linking sex with religious experience is a bit rich then you need to do some more Bible study 2 Indulgence in adultery is the most obvious of the sins proscribed in the Ten Commandments that could trace directly to hormonal influences 3 Should we be joining Haters Anonymous Schadenfreude Anonymous or Egotists

Anonymous in order to qualify for a better land and to actually enjoy it 4 Some of our excretory functions are less than ideal for a brand new earth the creator team could have done better by us if they wanted to 5 It is tacitly assumed God did not conduct experiments in His creation efforts No need to He knows the end from the beginning But Other challenging insights emerge in connection with Lot s use of his daughters as sex sops the possible symbolic significance of the Mosaic decree to cut off a lady s hand if she squeezed testicles the massaging of data in St Matthew s genealogies a religious uncertainty principle and the reason God doesn t do something to stop the frightful things happening in the world This is not a book built on hype and emotion It makes extensive use of scholarly sources but has a light hearted journalistic approach and is easy to read In exploring the spiritual import of sexual issues in nature and revelation it offers fresh perspectives on the bitter creation evolution debate the gross and genocidal behavior of the chosen people the currently unacceptable biblical restrictions on human sexual behavior and the decidedly low key role of women in organized religion Innovative succinct engaging thought provoking and sometimes shocking

The Case for Creationism Colin Mitchell,1994

Knowing the Truth About Creation Norman L. Geisler,2003-01-02 Are human beings a mere product of the cosmos with no future in eternity Or are we infinitely more valuable than any other creatures on earth Can we put a price tag on human life How should we treat marginal members of society those whiling away empty days in nursing homes the terminally ill the unborn child Norman Geisler believes that many of us have become confused about these vital issues In Knowing the Truth about Creation he delves into the biblical philosophical and scientific case for the Christian view of creation The result is a fascinating look at creation and the Creator

Portraits of Creation Howard J. Van Till,1990 This is a print on demand book and is therefore non returnable Recognizing that many North Americans regard natural science and biblical teaching as at odds with each other the authors respected scientists who are also committed Christians examine both the historical roots and the present manifestations of the science versus Bible tension critique several of the misperceptions that encourage an adversarial approach and offer reliable principles that the evangelical Christian community can use in determining what the Bible and science actually tell us about the physical universe and its formation
