Teaching Integrated Arts in the Primary School Anne Bloomfield, John Childs, 2013-12-16 First Published in 2000 This book reasserts the place of the arts dance drama music and the visual arts in the primary school curriculum at Reception and Key Stages 1 and 2 It

acknowledges the time constraints in a crowded curriculum and stresses a common developmental approach to the different forms of creative and aesthetic expression The arts are presented as the vital 4th R integrated modes of learning alongside Reading Writing and Arithmetic where children can absorb and express ideas feelings and attitudes Supported by illustrations examples of work a glossary of terms appendices of addresses for resource materials and further reading the work will stimulate and give confidence as a course textbook for student teachers and as a professional handbook for practitioners including arts coordinators advisory teachers and artists working in educational settings Clear guidance is given on the development of a personal autonomous teaching style and on evaluating and monitoring children s progression in skill acquisition creative production and critical response *Integrating the Arts Across the Content Areas* Lisa Donovan, Louise Pascale, 2012-10-01 Bring the arts back into the classroom with arts based activities and strategies to use in language arts mathematics science and social studies instruction *Play and Creativity in Art Teaching* George Szekely, 2015-03-02 In *Play and Creativity in Art Teaching* esteemed art educator George Szekely draws on his two classic volumes *Encouraging Creativity in Art Lessons* and *From Play to Art* to create a new book for new times The central premise is that art teachers are not only a source of knowledge about art but also a catalyst for creating conditions that encourage students to use their own ideas for making art By observing children at play and using props and situations familiar to them teachers can build on children s energy and self initiated discoveries to inspire school art that comes from the child s imagination The foundation of this teaching approach is the belief that the essential goal of art teaching is to inspire children to behave like artists that art comes from within themselves and not from the art teacher *Play and Creativity in Art Teaching* offers plans for the study of children s play and for discovering creative art teaching as a way to bring play into the art room While it does not offer a teaching formula or a single set of techniques to be followed it demystifies art and shows how teachers can help children find art in familiar and ordinary places accessible to everyone This book also speaks to parents and the important roles they can play in supporting school art programs and nourishing the creativity of their children
