Forged Jonathon Keats, 2013 According to Vasari the young Michelangelo often borrowed drawings of past masters which he copied returning his imitations to the owners and keeping originals Half a millennium later Andy Warhol made a game of forging the Mona Lisa questioning the entire concept of originality *Forged* explores art forgery from ancient times to the present In chapters combining lively biography with insightful art criticism Jonathon Keats profiles individual art forgers and connects their stories to broader themes about the role of forgeries in society From the Renaissance master Andrea del Sarto who faked a Raphael masterpiece at the request of his Medici patrons to the Vermeer counterfeiter Han van Meegeren who duped the avaricious Hermann G ring to the frustrated British artist Eric Hebborn who began forging to expose the ignorance of experts art forgers have challenged legitimate art in their own time breaching accepted practices and upsetting the status quo They have also provocatively confronted many of the present day cultural anxieties that are major themes in the arts Keats uncovers what forgeries and our reactions to them reveal about changing conceptions of creativity identity authorship integrity authenticity success and how we assign value to works of art The book concludes by looking at how artists today have appropriated many aspects of forgery through such practices as street art stenciling and share and share alike licensing and how these open source copyleft strategies have the potential to make legitimate art meaningful again Forgery has been much discussed and decried as a crime *Forged* is the first book to assess great forgeries as high art in their own right

Art Forgery. Where authenticity ends and fraud begins Anna-Theresa Lienhardt, 2014-05-27 Research Paper undergraduate from the year 2013 in the subject Art Overall Considerations grade 7 5 Maastricht University language English abstract The research paper presents the different points of view which exist concerning art forgery and explains the reasons why these are diverging in such a way At first the paper asserts that art forgery has to be defined with the help of its contrary which is the original and the term of authenticity However the definition of an authentic or an original artwork yielded no useful results Every generation every society has an own notion of

authenticity and the term ended as a contestable one Nevertheless the paper defines art forgery as an illegal imitation of another artist s artwork and its selling with the name of the original artist In the following the legal the art world s and the economic perspective reveal that art forgery causes many differing notions about it Legally copyright laws exist to grant authors exclusive reproduction rights and the only right on their property Thus art counterfeits are frauds whose originators have to be sentenced The art world however is completely divided when it is about assessing an art forgery A lot of people see it as mere pastiche and deny its aesthetic value while others know to esteem the art forger s achievements and proficiencies The economy on the hand sees art forgery as the creator of financial expenses and trouble within the market but on the other hand it also accepts that art copying causes benefits and positive effects too Therefore the economy s statement was to lower the restrictions of art forgery as this only leads to the loss of creative energy and art copying going underground Finally the case studies of Han van Meegeren Andy Warhol and Susie Ray reveal the reasons for the controversies on art forgery Some art counterfeits are legally clear cases while others are highly contestable There may be a legal way to forge works of art but do these copies have an authenticity or an aura And all the time the art world is embarrassed annoyed and furious as the forgery had made a fool of it In the end art forgery is a question of interpretation there is no clear answer how to assess it in its whole It always depends on the sight of view one takes

Thierry Lenain,2012-01-15 With the recent advent of technologies that make detecting art forgeries easier the art world has become increasingly obsessed with verifying and ensuring artistic authenticity In this unique history Thierry Lenain examines the genealogy of faking and interrogates the anxious often neurotic reactions triggered in the modern art world by these clever frauds Lenain begins his history in the Middle Ages when the issue of false relics and miracles often arose But during this time if a relic gave rise to a cult it would be considered as genuine even if it obviously had been forged In the Renaissance forgery was initially hailed as a true artistic feat Even Michelangelo the most revered artist of the time copied drawings by other masters many of which were lent to him by unsuspecting collectors Michelangelo would keep the originals himself and return the copies in their place As Lenain shows authenticity as we think of it is a purely modern concept And the recent innovations in scientific attribution archaeology graphology medical science and criminology have all contributed to making forgery more detectable and thus more compelling and essential to detect He also analyzes the work of master forgers like Eric Hebborn Thomas Keating and Han van Meegeren in order to describe how pieces baffled the art world Ultimately Lenain argues that the science of accurately deciphering an individual artist s unique characteristics has reached a level of forensic sophistication matched only by the forger s skill and the art world s paranoia

Scientific Investigation of Copies, Fakes and Forgeries Paul Craddock,2009-02-04 The faking and forgery of works of art and antiquities is probably now more extensive than ever before The frauds are aided by new technologies from ink jet printers to epoxy resins and driven by the astronomic prices realised on the global market This book aims to provide a comprehensive survey of the

subject over a wide range of materials emphasising how the fakes and forgeries are produced and how they may be detected by technical and scientific examination The subject is exemplified by numerous case studies some turning out not to be as conclusive as is sometimes believed The book is aimed at those likely to have a serious interest in these investigations be they curator collector conservator or scientist Paul Craddock has recently retired from the Department of Conservation Documentation and Science at the British Museum where he was a materials scientist

False Impressions Thomas Hoving, 1997-05-08 The former director of the Metropolitan Museum of Art examines the world of art forgery from ancient times to the present sharing anecdotes about some of the costliest most embarrassing forgeries ever as well as the motives of the fakers

Art David A. Scott, 2016-12-31 This book presents a detailed account of authenticity in the visual arts from the Paleolithic to the postmodern The restoration of works of art can alter the perception of authenticity and may result in the creation of fakes and forgeries These interactions set the stage for the subject of this book which initially examines the conservation perspective then continues with a detailed discussion of notions of authenticity and philosophical background There is a disputed territory between those who view the present day cult of authenticity as fundamentally flawed and those who have analyzed its impact upon different cultural milieus operating across performative contested and fragmented ground The book discusses several case studies where the ideas of conceptual authenticity aesthetic authenticity and material authenticity can be incorporated into an informative discourse about art from the ancient to the contemporary illuminating concerns relating to restoration and art forgery

Fake? Mark Jones, Paul T. Craddock, Nicolas Barker, 1990-01-01 Describes the methods used to make artistic literary documentary and political forgeries and the recent scientific advances in their detection Includes over 600 objects from the British Museum and many other major collections from ancient Babylonia to the present day

Art David Scott, 2015-07-31 This book is concerned with how we perceive the authenticity of art objects and asks What does authenticity mean Who defines what an authentic or inauthentic artwork is How has the concept of what constitutes the authentic changed over the past few thousand years and how might this interact with conservation and restoration Do different cultures have different views on what authenticity is and if so how does this affect the notion of forgery or restoration Are there degrees of authenticity or inauthenticity How can we apply the notion of authenticity to ethnographic art or to intangible cultural heritage Do alterations of substance during restoration affect the material authenticity conceptual authenticity or meaning of art objects The author examines the recent renewed interest in the problems of the inauthentic namely the world of fakes and forgeries restoration replication emulation appropriation and falsification of works of art Contents Chapter One Authenticity Contexts and Meanings Chapter Two Some Philosophical Notions of Authenticity Chapter Three Authenticity Monuments and the International Charters Chapter Four Cleaning Restoration and Authenticity Chapter Five The Ancient Old World Chapter Six Mediaeval Authenticity Chapter Seven Authenticity and the Ethnographic Chapter Eight The Renaissance Restoration Copies and Authenticity Chapter Nine The 19th Century and the Victorian Period Chapter Ten The Modern and Post Modern Chapter Eleven Some Final Thoughts and Reflections Acknowledgements

Appendix Glossary of Terms Bibliography *Fakes and Forgeries* Peter Knight, Jonathan Long, 2004 The possibility that works of art and literature might be forged and that identity might be faked has haunted the cultural imagination for centuries That spectre seems to have returned with a vengeance recently with a series of celebrated hoaxes and scandals ranging from the Alan Sokal hoax article in *Social Text* to Benjamin Wilkomirski's *Fraud* Holocaust memoir But as well as creating anxiety the possibility of faking it has now been turned into entertainment Traditionally these activities have been dismissed as dangerous and immoral but more recently some scholars have begun to speculate for example that all forms of national identity rely on forged myths of origin Recent cultural theory has likewise called into question traditional notions of authenticity and originality in both personal identity and in works of art Despite critical pronouncements of the death of the author and the substitution of the simulacrum for the original however making a distinction between the genuine and the fake continues to play a major role in our everyday understanding and evaluation of culture law and politics Consider for example the fiasco surrounding the forged Hitler diaries law suits against auction houses for failing to detect forgeries in the art market or the problem of plagiarism at universities It still seems to matter that we can spot the difference especially in the historical moment when we are capable of making copies that are indistinguishable perhaps even better than the original This collection of essays considers the moral aesthetic and political questions that are raised by the long history and current prevalence of fakes and forgeries The international team of contributors consider the issues thrown up by a wide range of examples drawn from fields ranging from literature to art history These case studies include little known subjects such as Eddie Burrup the Australian aboriginal artist who turned out to be an 81 year old white woman as well as new interpretations of familiar cases such as faked Holocaust memoirs The strength of the collection is that it brings together not only a wide range of cultural examples of fakes and forgeries from different historical periods but also offers a wide variety of theoretical takes that will form a useful introduction and casebook on this growing field of inquiry **Aspects of Art**
