A Writer of Our Time Joshua Sperling, 2018-11-20 This engaging intellectual biography traces Berger's creative evolution analyzes highlights from his vast output and situates them within his empathetic Marxism The New Yorker The first intellectual biography of the life and work of John Berger John Berger was one of the most influential thinkers and writers of postwar Europe As a novelist he won the Booker prize in 1972 donating half his prize money to the Black Panthers As a TV presenter he changed the way we looked at art with Ways of Seeing As a storyteller and political activist he defended the rights and dignity of workers migrants and the oppressed around the world Far from

dragging politics into art he wrote in 1953 art has dragged me into politics He remained a revolutionary up to his death in January 2017 Built around a series of watersheds at once personal and historical A Writer of Our Time traces Berger s development from his roots as a postwar art student and polemicist in the Cold War battles of 1950s London through the heady days of the 1960s when the revolutions were not only political but sexual and artistic to Berger s reinvention as a rural storyteller and the long hangover that followed the rise and fall of the New Left Drawing on first hand unpublished interviews and archival sources only recently made available Joshua Sperling digs beneath the moments of controversy to reveal a figure of remarkable complexity and resilience The portrait that emerges is of a cultural innovator as celebrated as he was often misunderstood and a writer increasingly driven as much by what he loved as by what he opposed A Writer of Our Time brings the many faces of John Berger together repatriating one of our great minds to the intellectual dramas of his and our time

On the Study Methods of Our Time Giambattista Vico,2018-08-06 On the Study Methods of Our Time remains a key text for anyone interested in the development s of Vico s thought and serves as a concise introduction to his work Scholars and students in such disciplines as the history of philosophy intellectual history literary theory rhetoric and the history and philosophy of education will find this volume helpful and fascinating Giambattista Vico s first original work of philosophy On the Study Methods of Our Time 1708 9 takes up the contemporary quarrel between the ancients and the moderns and provides a highly interesting statement of the nature of humanistic education This edition makes available again Elio Gianturco s superb 1965 English translation of a work

generally regarded as the earliest statement by Vico of the fundamentals of his position. An important contribution to the development of the scientism versus humanism debate over the comparative merits of classical and modern culture, this book lays out Vico's powerful arguments against the compartmentalization of knowledge which results from the Cartesian world view. In opposition to the arid logic of Cartesianism, Vico here celebrates the humanistic tradition and posits the need for a comprehensive science of humanity which recognizes the value of memory and imagination.

Henry Fielding In Our Time J. A. Downie, 2020-11-09. Henry Fielding In Our Time publishes many of the papers presented at the international conference held at the University of London 19-21 April 2007 to commemorate the tercentenary of his birth. Written by established scholars including the acknowledged doyen of Fielding scholars Martin C. Battestin of the University of Virginia as well as younger scholars who successfully bring their recent research to bear on neglected areas of Fielding's life and works, the essays offer a cross section of current approaches to Fielding and his writings from his ballad operas, poetry, and political journalism via Joseph Andrews, Tom Jones, and Amelia, the novels for which he is still best known, to the social pamphlets written during his years at Bow Street as magistrate for Westminster and Middlesex. The collection should appeal both to undergraduate and postgraduate students as well as academics and general readers interested in the eighteenth century in general and Fielding's contribution to the emergence and development of the novel form in particular.

Art in the Time of Colony Dr. Khadija von Zinnenburg Carroll, 2014-04-28. It is often assumed that the verbal and visual languages of indigenous people had little influence upon the classification of scientific, legal, and artistic objects in the metropolises and museums of nineteenth-century colonial powers. However, as this book demonstrates, it is a fallacy that colonized locals merely collected material for interested colonizers. Through an analysis of particular language notations and drawings hidden in colonial documents and a reexamination of cross-cultural communication, the book writes biographies for five objects that exemplify the tensions of nineteenth-century history.

Reading for Our Time J. Hillis Miller, 2012-03-05. A masterclass in attentive reading that opens up brilliant insights into two of George Eliot's novels. Can reading Adam Bede and Middlemarch be justified in this time of climate change, financial meltdown, and ineffective politicians? J. Hillis Miller shows how to be read for today; they must be read slowly, closely, and carefully, with much attention to linguistic detail and especially to figures of speech. By relating mistakes like Dorothea's about Casaubon to current affairs, Miller's readings for today can help us to come to terms with our human
