Group, 1974 **Romanticism and Postromanticism** Claudia Moscovici, 2007-02-09 Claudia Moscovici asserts in
Romanticism and Postromanticism that the Romantic heritage far from being important only in a historical sense has
philosophical relevance and value for contemporary art and culture With an emphasis on artistic tradition as a continuing
source of inspiration and innovation she touches upon each main branch of philosophy aesthetics epistemology and ethics
The book begins by describing some of the most interesting features of the Romantic movement that still fuel our culture It
then addresses the question How did an artistic movement whose focus was emotive expression change into a quest for
formal experimentation And finally Moscovici considers the aesthetic philosophy of postromanticism by thinking through how
the Romantic emphasis upon beauty and passion can be combined with the modern and postmodern emphasis on originality
and experimentation The Civilization of Illiteracy Mihai Nadin, 1997 Phenomena related to the transition from a literacy
dominated civilization to one of various means of expression and communication are at the center of his book The fall of
totalitarian regimes the current structural difficulties of the European Community the burden of state bureaucracies the
world wide effort of re engineering and the global economy are part of the bigger picture of a necessary development
