Art Of Encaustic Painting Contemporary Expression In The Ancient Medium Of Pigmented Wax:

The Art of Encaustic Painting Joanne Mattera, 2001-06-01 Encaustic is a waxed based painting medium characterized by luminous color and a lush surface It s an ancient art dating as far back as Ancient Greece and the Roman Empire and today is enjoying a revival Here is the first comprehensive guide available on mastering this beautiful yet demanding medium In *The Art of Encaustic Painting* readers will learn surefire ways to achieve vibrant color and create surfaces that look as light as a wash or as densely textured as impasto They will see how to produce effects from abstract to figurative to minimal Finally they will discover dozens of clear step by step directions detailing how to use these various encaustic techniques in their own art This remarkable reference also includes 200 attractive full color photographs of the author s own work as well as stunning examples by such premier encaustic artists as Jasper Johns Arthur Dove and Nancy Graves

The Pictorial Art of El Greco Livia Stoenescu, 2025-10-01 *The Pictorial Art of El Greco* Transmaterialities Temporalities and Media investigates El Greco s pictorial art as foundational to the globalising trends manifested in the visual culture of early modernity It also exposes the figurative semantic and allegorical senses that El Greco created to challenge an Italian Renaissance centered discourse Even though he was guided by the unprecedented burgeoning of devotional art in the post Tridentine decades and by the expressive possibilities of earlier religious artifacts especially those inherited from the apostolic past the author demonstrates that El Greco forged his own independent trajectory While his paintings have been studied in relation to the Italian and Spanish school traditions his pictorial art in a global Mediterranean context continues to receive scant attention Taking a global perspective as its focus the book sheds new light on El Greco s highly original contribution to early Mediterranean and multi institutional configurations of the Christian faith in Byzantium Venice Rome Toledo and Madrid
