## **Art Of General Practice:**

**The Art of General Practice** David Bartlett, 2018-08-20 A collection of life experiences anecdotes and suggestions from an experienced GP and GP trainer focusing on the emotional intelligence required to be a great GP The Art of General Practice is a short text written by an experienced GP and GP trainer It is a book which will help focus the mind of the reader GPs of all descriptions young GPs returners to general practice and even jaded GPs on what it means to be a GP Too often general practice focuses on guidelines ever changing targets incentives or the academic side of medicine and the art and craft of being a GP is forgotten The book aims to redress the balance it helps the reader refocus on the emotional intelligence needed to be a great GP The book consists of a number of short chapters so the busy GP can dip in and out of it as time allows each chapter helps the reader re centre on the core skills and techniques needed to be a great GP and the benefits these skills will bring to both GPs and patients alike There is almost no medicine in this book it is a book of life experiences anecdotes and suggestions all aimed to help you survive the increasing pressures of general practice and make your life as a GP more interesting and less stressful *A History of the Royal College of General Practitioners* John Fry, R.J.F.H.

Pinsent, 2012-12-06 John P Horder President 1980-82 The first 30 years of the College have been an exciting experience for those most closely involved Some have already passed on but this account has been written soon enough for many of the actors to be historians Future members of the College will be grateful to them for what they have written as well as for what they did as a remarkably determined and harmonious team Students of twentieth century medicine in this country will also be grateful for a first hand account of the development of an institution which has been closely associated with and partly responsible for important changes in medical care and education Those who read these pages may wonder how the builders of this young College could have found time to do much general practice They did The three editors of this history which covers 25 years and the general practitioner members of the Steering Committee all ran large practices in which they worked very hard throughout that time Most of their work for the College was done during off duty hours weekends and holidays The College could not have developed as it did had they not been personally concerned with the practical problems and needs of clinical medicine This is also true of many of the contributors It is impossible to mention everyone who deserves credit The editors hope that they may be forgiven for any serious omissions **Index-catalogue of the Library of the**
