Subject Guide to Books in Print ,1996 Whispers From Within Tanisha Chakrabarty,2023-07-31 This book is a collection of 50 poems Poems about the beauty of love the pain of loss the memories that cannot be erased the power of dreams the joy in forgiveness and the harshness of reality Each poem is a window into a different world a different moment Some may make you smile while others may bring tears to your eyes And I hope as you hold this book and start turning the pages you will find yourself lost in the poems In the Beginning was the Deed Harry Redner,2024-06-04 Now that the collective death of mankind has become a possibility no other thought can remain unimpaired Harry Redner traces historically the onset of this acute state of Nihilism from what might be called the Faustian revolution symbolized by Faust s pronouncement In the beginning was the Deed Redner reflects on the passage of the three main Fausts from Marlowe s to

Goethe's to Thomas Mann's and this reflection serves as the dramatic metaphor for a review of the relationship of Progress to Nihilism in modern civilization. Starting with an exposition of the key Faustian thinkers Marx, Nietzsche, Wittgenstein, and Heidegger, the book proceeds by examining the dominant modern ideas on Man, Time, and Nihilism with reference to Foucault, Derrida, and Althusser. It focuses on Language, which is a key preoccupation of all these thinkers but has not yet been taken far enough to afford a basis for the explanation of fundamental changes in civilization. Language in its creative and destructive functions as constituting both the conscious and unconscious of a culture is reconceived so as to account for the hidden link between Progress and Nihilism. The author then explores sociologically the dominant aspects of Progress in terms of the ideas of Weber, Adorno, and Marcuse on Technology, Subjectivity, and Activism. Finally, an extensive literary study of the three main Fausts concludes with a coda on the future of music. In the Beginning Was the Deed is lucid and direct, tinged with wry humor. Redner represents Man in the nuclear age and reflects on that representation seeking to comprehend our era, draw ethical and political conclusions, and explore action as a response to the threat of annihilation. This three-volume set brings together all that Samuel Richardson himself published on the composition, printing, and interpretation of *Clarissa*. The various short works reveal Richardson's reactions to the concerns and issues raised by contemporary readers. **Territorial Ambitions and the Gardens of Versailles** Chandra Mukerji, 1997-09-25. In seventeenth-century France, land took on new importance for the practice of politics and rituals of court life. In her major new book, Chandra Mukerji highlights the connections between the two seemingly disparate activities of engineering and garden design. She shows how at Versailles, in particular, the royal park showcased French skills in using nature and art to design a distinctively French landscape and create a naturalized political territoriality. She challenges the association of state power with social and legal structures alone and demonstrates the importance for Louis XIV and his state of a controlled physical site, a demarcated French territory within the wider European geo-political continent.
