Ofari Hutchinson Art of the Interview Patrick H Freeman, 2021-02-12 The Art of the Interview is truly a signature work in the field of both broadcasting the spoken word and the historiography of many of America's leading African American achievers, movers and shakers. The Art of the Interview, as is the case with the many historic noted guests Dr Freeman has interviewed, will stand as our guidepost to not only the art of interviewing but the art of ensuring that our storied African American history and legacy is preserved for the ages. Earl Ofari Hutchinson **The Artist Interview** Lydia Beerkens, 2012 In order to preserve and maintain contemporary artworks, we need authentic content related and technical information which we can obtain by interviewing the artists who produced them. The SBMK Foundation for the Conservation of Contemporary Art and RCE Cultural Heritage Agency of the Netherlands worked together for years to develop guidelines and good practices. In 2012, a book will be published: The Artist Interview. For conservation and presentation of contemporary art. Guidelines and practice. This handbook provides a scenario including tips and checklists for conducting artist interviews as well as ten sample interviews that give an insight in the possibilities of an artist interview as a tool. **Art Now** Illuminations, 2002-01-01 Art Now is a series of interview-based profiles of prominent contemporary visual artists bringing together the work of Howard Hodgkin, Antony Gormley, Rachel Whiteread, Julian Opie, Mark Wallinger and 2001 Turner Prize winner Martin Creed. Sandy Nairne's introductory essay offers a comprehensive overview of the state of contemporary art, highlighting how the six artists manifest some of the best recent and emerging art in Britain today. Each interview presents a thought-provoking survey of the artist's work and ideas and offers a rare and personal insight into their influences and creative processes. Art Now is an excellent introduction to some of today's most important contemporary artists and provides an accessible way to engage with the pleasures and puzzles of art in the twenty-first century. The Qualitative Interview Jeanine Evers, Fijgje de Boer, 2012 Since the qualitative interview resembles a good conversation, what makes somebody a good discussion partner? It's that the person listens attentively, thinks along, empathizes with what has just been said and does not interrupt. In short, it's someone who is empathetic and interested. Is such a person a good interviewer by nature? No, as these characteristics form only the basis for a part of the art referred to in the title of this book. However, the interviewer also needs additional knowledge and skills that are discussed extensively in this book. An interview should first of all have a well-defined information goal. And only when the skills of the good discussion partner merge with the researcher's knowledge do we observe the art of the interview. This book will benefit those who are professionally involved in doing qualitative interviews or who are learning how to conduct these interviews. Contents include: A Short Introduction to Qualitative Research, The Qualitative Interview Features, Types and Preparation, Designing Individual Interviews, Conducting an Individual Interview, Designing a Focus Group, Conducting a Focus Group, Processing Qualitative Interviews. **Aesthetics and the City** Joe Blakey, Amy Barron, 2025-07-25 Aesthetics and the City engages aesthetics to explore the role of the city in urban experience. Drawing on diverse theories and global case studies, this edited collection examines how aesthetics relates

to how cities and urban spaces are perceived organised and transformed This book celebrates and ponders the wide diversity of aesthetic approaches within urban studies noting that the way aesthetics is understood impacts what can be understood about cities and the urban order more generally In its most general sense aesthetics refers to our sensuous relation to the world It invariably figures in how we make sense of the city and ourselves bound to how urban life is experienced imaginatively materially socially culturally and politically In an era where scholars have expressed concern at epistemological city centrism aesthetics is proposed as a versatile concept through which the centrality of the city to urban thought can be assessed The book also explores how aesthetics intersects with a range of tangential concepts including power the political art and affect Ultimately it makes the case that this diverse ensemble of approaches to aesthetics can enable scholars to understand the city and its enduring relevance to urban thought This book focuses on the concepts of aesthetics and the city and will appeal to scholars and students in urban studies human geography planning politics and sociology
