The Art Question Nigel Warburton, 2003 If an artist sends a live peacock to an exhibition is it art What is art is a question many of us want answered but are too afraid to ask It is the very question that Nigel Warburton demystifies in this brilliant and accessible little book With the help of varied illustrations and photographs from Cezanne and Francis Bacon to Andy Warhol and Damien Hirst best selling author Warburton brings a philosopher's eye to art in a refreshing jargon free style With customary clarity he explains art theories that are much discussed but little understood by thinkers such as Clive Bell R G Collingwood and Wittgenstein He illuminates other perplexing problems in art such as the artist's intention representation and emotion Drawing on photographs of Cindy Sherman and Tiananmen Square Warburton shows that if we are ever to answer the art question we must consider each work of art on its own terms A stimulating and handy guide through the art maze The Art Question is essential reading for anyone interested in art philosophy or those who simply like looking at and thinking about pictures

Baldacchino,2012-03-26 In taking the critique of inclusion and entry as a first step *Art's Way Out's* discussion of art politics and learning aims to delineate what an exit pedagogy would look like where culture is neither seen as a benign form of inclusion nor as a hegemonic veil by which we are all subscribed to the system via popularized forms of artistic and cultural immediacy An exit pedagogy as prefigured in what could be called *art's way out* through the implements of negative recognition *qua* *impasse* would not only avoid the all too facile symmetrical dualism between conservative and progressive liberal and critical pedagogies but also seek the continuous referral of such symmetries by setting them aside and look for a way out of the confined edifices of education and culture *per se* An exit pedagogy seeks its way out by reasserting representation in the comedic the jocular and more effectively in the arts power of pausing as that most effective way by which aesthetics comes to effect in its autonomist and radical essence In this fluent limpid and scholarly work Baldacchino examines *inter alia* the problem of empathy in relation to art as an event or series of events drawing upon a wide and rich range of sources to inform what in effect is his manifesto With a profound understanding of its philosophical basis Baldacchino unfolds his argument in an internally consistent and elegantly structured way This is not a book to be dipped into to do so would miss the development of Baldacchino's philosophical position like an art work itself *Art's Way Out* has coherent structure and a complex interrelation between form and content reflecting an artist's concern for getting things right Richard Hickman Cambridge University Although art has a limitless capacity to take on myriad responsibilities according to Baldacchino we also need to consider a way out because only then will we understand how art goes beyond the boundaries of possibility As he explains our way into reason also comes from an ability to move outside the limits that reason sets This is the exit pedagogy that he advocates And here exit does not mean to leave but rather to reach beyond to extend and explore outside the borders we impose on learning teaching schooling and most forms of cultural agency The need to embrace the capacity of art to cycle beyond the contingencies we impose on it also helps to clarify the limits of inclusive arguments for deploying art education for various individual institutional and socio political ends art as self expression art as interdisciplinary method art as culture industry art as political culture art as social justice and so on This image invokes for me part of the legacy of Maxine Greene that Baldacchino revealed in his earlier text *Education Beyond Education* 2009 when he explored her thesis of the social imagination which is best achieved when teaching becomes reaching What *Art's Way Out* gives us is an exit strategy from the deadening tendency to ignore the enduring capacity of art to give life to learning

teaching and the very culture of our being Graeme Sullivan Penn State University This is the sixth book authored by John Baldacchino the other most recent books being Education Beyond Education Self and the Imaginary in Maxine Greene's Philosophy 2009 and Makings of the Sea Journey Doubt and Nostalgia 2010 Currently Associate Dean at the School of Art Design University College Falmouth in England he was full time member of faculty at Columbia University's Teachers College in New York Gray's School of Art in Scotland and Warwick University in England Front cover image Monument to Marx we should have spoken more 2009 by Mike Ting

Art in the Social Order Preben Mortensen, 1997-03-20 Seeks to replace the dominant approaches to the question of the nature of art in contemporary English speaking analytic philosophy with a historicist approach that emphasizes localized cultural historical narratives

The Hard Question of Art Metahaven, 2026-03-17 Leading design group Metahaven on what is art in the 21st Century The Hard Question of Art questions our assumptions of what art is today and sets out new ways of thinking creatively for the future In these complicated times when the power to change things seems out of our grasp we put a huge weight on art to transform the world but how Does beauty matter Does Art have a moral purpose As scientists map our brains when we look at a painting what do these flashing synapses tell us about these signals Can you tell the difference between work produced by an artist or an AI Is the murmuration of birds a form of creativity Does the price a work sells for on the market reference its quality What is the point if art can't reverse climate change Metahaven argue that in this urgent age we need to rethink what art does in the world for the creator the viewer the owner Art is a means of communion We should stop asking whether we think it is good or not It is what moves us and can therefore become the means through which change can happen

Heidegger on Art and Art Works J.J. Kockelmans, 1985-04-30 This book grew from a series of lectures presented in 1983 in the context of the Summer Program in Phenomenology at The Pennsylvania State University For these lectures I made use of notes and short essays which I had written between 1978 and 1982 during interdisciplinary seminars on Heidegger's later philosophy in general and on his philosophy of language and art in particular The participants in these seminars consisted of faculty members and graduate students concerned with the sciences the arts literature literary criticism art history art education and philosophy On both occasions I made a special effort to introduce those who did not yet have a specialized knowledge of Heidegger's philosophy to his later way of thinking In this effort I was guided by the conviction that we as a group had to aim for accuracy precision clarity faithfulness and depth while at the same time taking distance comparing Heidegger's views with ideas of other philosophers and thinkers and cultivating a proper sense of criticism Over the years it has become clear to me that among professional philosophers literary critics scholars concerned

with art history and art education and scientists from various disciplines there are many who are particularly interested in Heidegger's philosophy of art I have also become convinced that many of these dedicated scholars often have difficulty in understanding Heidegger's lectures on art and art works This is understandable **The art journal London** ,1895 **100**
