Greek Literature: Greek literature in the Hellenistic period Gregory Nagy, 2001

Hellenistic History and Culture Peter Green, 2023-09-01 In a 1988 conference American and British scholars unexpectedly discovered that their ideas were converging in ways that formed a new picture of the variegated Hellenistic mosaic That picture emerges in these essays and eloquently displays the breadth of modern interest in the Hellenistic Age A distrust of all ideologies has altered old views of ancient political structures and feminism has also changed earlier assessments The current emphasis on multiculturalism has consciously deemphasized the Western Greco Roman tradition and Nubians Bactrians and other subject peoples of the time are receiving attention in their own right not just as recipients of Greco Roman culture History like Herakleitos river never stands still These essays share a collective sense of discovery and a sparking of new ideas they are a welcome beginning to the reexploration of a fascinatingly complex age In a 1988 conference American and British scholars unexpectedly discovered that their ideas were converging in ways that formed a new picture of the variegated Hellenistic mosaic That picture emerges in these essays and eloquently displays the breadth of

Persian elements *The Oxford History of Western Art* Martin Kemp, 2000

The Oxford History of Western Art is the new authority on the development of visual culture in the West over the last 2700 years from the classical period to the end of the twentieth century OHWA is an innovative and challenging reappraisal of how the history of art can be presented and understood None of the currently available general histories of art offers the wealth of perspectives and cross media references of this book Through a carefully devised modular structure readers are given insights not only into how and why works of art were created but also how works in different media relate to each other across time Here uniquely is not the simple linear story of art but a rich series of stories told from varying viewpoints The founding principle of the book has been to use carefully selected groupings of pictures to give readers a sense of the visual texture of the various periods and episodes covered The 167 illustration groups supported by explanatory text and picture captions create a sequence of visual tours not merely a procession of individually great works viewed in isolation but juxtapositions of significant images that powerfully convey a sense of the visual environments in which works of art need to be viewed in order to be understood and appreciated The aim throughout has been to make the shape and nature of these visual presentations a stimulating and rewarding experience allowing readers to become active participants in the process of interpretation and synthesis Another key feature of the narrative is the re definition of traditional period boundaries Rather than relying on conventional labels such as Medieval Renaissance Baroque etc five major phases of significant historical change are established that unlock longer and more meaningful continuities The art of classical antiquity from c 600 BC to the fall of Rome in AD 410 The establishment of visual culture in Europe from 410 to 1527 the sack of papal Rome European visual regimes from 1527 to 1770 The era of revolutions 1770 to 1914 Modernism and after 1914 to 2000 This new framework shows how the major religious and secular functions of art have been forged sustained transformed revived and revolutionized over the ages how the institutions of Church and State have consistently aspired to make art in their own image and how the rise of art history itself has come to provide the dominant conceptual framework within which artists create patrons patronize collectors collect galleries exhibit dealers deal and art historians write The text has been written by a team of 50 specialist authors working under the direction of Professor Martin Kemp one of the UK's most distinguished art historians Whilst bringing their own expertise and vision to their sections each author was also asked to relate their text to a number of unifying themes and issues including written evidence physical contexts patronage viewing and reception techniques gender and racial issues centres and peripheries media and condition the notion of art and current presentations Though the coverage of topics focuses on European notions of art and their transplantation and transformation in North America space is also given to cross fertilizations with other traditions including the art of Latin America the Soviet Union India Africa and Afro Caribbean Australia and Canada Professor Kemp and his team similarly deal generously with the applied arts and reproductive media such as photography and prints The result is a vibrant vigorous and revolutionary account of Western art serving both as an

inspirational introduction for the general reader and an authoritative source of reference and guidance for students

Ancient Greece and Rome Keith Hopwood, 1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell Black Tom delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally

A History of Greek Art Mark D. Stansbury-O'Donnell, 2015-01-27 Offering a unique blend of thematic and chronological investigation this highly illustrated engaging text explores the rich historical cultural and social contexts of 3 000 years of Greek art from the Bronze Age through the Hellenistic period Uniquely intersperses chapters devoted to major periods of Greek art from the Bronze Age through the Hellenistic period with chapters containing discussions of important contextual themes across all of the periods Contextual chapters illustrate how a range of factors such as the urban environment gender markets and cross cultural contact influenced the development of art Chronological chapters survey the appearance and development of key artistic genres and explore how artifacts and architecture of the time reflect these styles Offers a variety of engaging and informative pedagogical features to help students navigate the subject such as timelines theme based textboxes key terms defined in margins and further readings Information is presented clearly and contextualized so that it is accessible to students regardless of their prior level of knowledge A book companion website is available at www.wiley.com/go/greekart with the following resources PowerPoint slides glossary and timeline

[The Spirit of Secular Art](#) Robert Nelson, 2007 THE SPIRIT OF SECULAR ART explains the spiritual prestige of art Various theorists have discussed how art has an aura or indefinable magic This book explains how when and why it gained its spiritual properties The idea that all art is somehow spiritual even though not religious is often assumed this book while narrating the historical trajectory of art in the most accessible language reveals how the mysteries of religious practice are abstracted and saved through all stages of secularisation in European culture THE SPIRIT OF SECULAR ART presents a coherent theory defining the sacred basis of Western aesthetics It evocatively describes the afterlife of the holy from Ancient Greece to the present and outlines how the mysterious institution of art can be explained in material terms Unlike other books in the genre THE SPIRIT OF SECULAR ART radically deconstructs traditional art history in terms of prestige and the value of the non material The book

functions as an alternative critical history of art integrated with the histories of literature and belief a philosophical essay on the fundamental values of art and religion and a critique of the spiritual conceits of contemporary aesthetics and art appreciation

J. Pollitt, 1990 This book a companion volume to Professor Pollitt's *The Art of Rome Sources and Documents* published by the Press in 1983 presents a comprehensive collection in translation of ancient literary evidence relating to Greek sculpture painting architecture and the decorative arts Its purpose is to make this important evidence available to students who are not specialists in the Classical languages or Classical archaeology The author's translations of a wide selection of Greek and Latin texts are accompanied by an introduction explanatory commentary and a full bibliography An earlier version of this book was published twenty five years ago by Prentice Hall In this new publication Professor Pollitt has added a considerable number of new passages revised some of his earlier translations and presented the texts in a different order which allows the reader to follow more easily the development of sculpture and painting as perceived by the ancient writers The new and substantial bibliography organised by topics as they appear in the book emphasises works that deal directly with the literary sources or that supplement our knowledge of the personalities and monuments described in the sources This collection will be welcomed by students and teachers of Greek art who have long been in need of an authoritative and reliable sourcebook for their subject
