Mastering Innovation Through New Art Policy Pasquale De Marco, 2025-07-10 In Creative Arts Mastering Innovation Through New Art Policy cultural historian Pasquale De Marco takes a fresh look at how Americans fund the arts and why After forty years of government subsidy and billions of dollars spent American arts institutions are no more secure financially than before Behind the headlines about controversial grants to the arts abides a realm of conservatism bureaucracy and jostling special interests With well established mainstream institutions capturing the bulk of government subsidies artistic repertoires are reaching ever further into the past while truly innovative artists languish on the sidelines This book is a call for a new model of arts funding in America one that is more responsive to the needs of artists and arts organizations and one

that recognizes the vital role that the arts play in our society Marquis argues that the current system of arts funding is broken It is too bureaucratic too centralized and too focused on the past She proposes a new model of arts funding that is more flexible more decentralized and more focused on the future This new model would allow artists and arts organizations to take more risks to experiment with new ideas and to create new work that reflects the values and aspirations of the American people Marquis also argues that the arts are essential for a healthy democracy They help us to understand ourselves and our world they bring people together and they promote social cohesion In short the arts make us human Creative Arts is a passionate and thought provoking book that will change the way you think about the arts and their role in society It is a must read for anyone who cares about the future of American culture If you like this book write a review
