Bednarik, 1997-01-01 This is a unique volume in the history of rock art studies meant at once for the advanced scholar serious student and the curious but conscientious layman co authored by K K Chakravarty and R G Bednarik who co chaired the Rock Art session of the World Archaeological Congress 3 at Delhi in 1994 It is a synoptic but comprehensive survey illustrated by 221 photographs and sketches including 172 photographs in colour The two scholars have not only described the latest state of research on rock art but also transported rock art studies into the realm of interdisciplinary inter cultural analysis Buttressed by an indicative map of the rock art regions a list of major up to date direct dating results on rock art a glossary of keywords related to spatial temporal technological managerial categories and an index this volume blends precise dispassionate descriptions with eloquent evocations It blends conclusions distilled from rigorous hard headed field research with penetrating criticism and assessment of the evidence It combines a ruthless brevity and density with extraordinary felicity and clarity of language Above all it is an wonderful attempt at dealing with the problems of understanding which dog human attempts to comprehend the meaning and shape of human creativity **The Art of the Pacific Islands** P. W. Gatherecole, Adrienne L. Kaeppler, Douglas Newton, National Gallery of Art (U.S.), 1979 Du site de l d In spite of the wealth it has to offer the art of the Pacific Islands remains perhaps the least known of the world's art to the modern audience Throughout this mass of islands there existed hundreds of cultures many of them sustained by only a few hundred people The cultures developed into richly disparate modes with elaborate social systems and highly

refined systems of intellectual and religious life Most striking of all however is that these cultures created an extraordinary range of art styles to express and serve their beliefs The aim of the exhibition this catalog accompanied was to highlight objects that were made before or collected at the earliest contact by Westerners and which therefore reflect the most pristine state of the cultures Many of the works included had never before been published or exhibited Adorning the World Eric Kjellgren, Carol S. Ivory, 2005 The imagery of Marquesan art is testament to the myriad beings and creatures who inhabited the Marquesan universe gods ancestors humans lizards turtles fish and to the islands complex social and political organization These art forms are explored in the present volume published in conjunction with the exhibition Adorning the World Art of the Marquesas Islands held at The Metropolitan Museum of Art BOOK JACKET Wrapping and Unwrapping Material Culture Susanna Harris, Laurence Douny, 2016-06-16 This innovative volume challenges contemporary views on material culture by exploring the relationship between wrapping materials and practices and the objects bodies and places that define them Using examples as diverse as baby swaddling Egyptian mummies Celtic tombs lace underwear textile clothing and contemporary African silk the dozen archaeologist and anthropologist contributors show how acts of wrapping and unwrapping are embedded in beliefs and thoughts of a particular time and place Employing methods of artifact analysis microscopy and participant observation the contributors provide a new lens on material culture and its relationship to cultural meaning The Oxford Handbook of the Archaeology and Anthropology of Rock Art Bruno David, Ian J. McNiven, 2018 Rock art is one of the most visible and geographically widespread of cultural expressions and it spans much of the period of our species existence Rock art also provides rare and often unique insights into the minds and visually creative capacities of our ancestors and how selected rock outcrops with distinctive images were used to construct symbolic landscapes and shape worldviews Equally important rock art is often central to the expression of and engagement with spiritual entities and forces and in all these dimensions it signals the diversity of cultural practices across place and through time Over the past 150 years archaeologists have studied ancient arts on rock surfaces both out in the open and within caves and rock shelters and social anthropologists have revealed how people today use art in their daily lives The Oxford Handbook of the Archaeology and Anthropology of Rock Art showcases examples of such research from around the world and across a broad range of cultural contexts giving a sense of the art's regional variability its antiquity and how it is meaningful to people in the recent past and today including how we have ourselves tended to make sense of the art of others replete with our own preconceptions It reviews past present and emerging theoretical approaches to rock art investigation and presents new cutting edge methods of rock art analysis for the student and professional researcher alike Developments in Polynesian Ethnology Robert Borofsky, S. Alan Howard, 2019-03-31 Development in Polynesian Ethnology assesses the current state of anthropological research in Polynesia by examining the debates and issues that shape the discipline today What have anthropologists achieved What concerns now dominate discussion Where is Polynesian anthropology headed In a series of

provocative and original essays leading scholars examine prehistory social organization socialization and character development mana and tapu chieftainship art and aesthetics and early contact Together these essays show how history anthropology and archaeology have combined to give a broad understanding of Polynesian societies developing over time how they represent a blend of modernity and tradition continuity and change This book is both an introduction to Polynesia for interested students and a thought provoking synthesis for scholars charting new directions and posing possibilities for future research Scholars outside Polynesian studies will find the perspectives it offers important and its comprehensive bibliography an invaluable resource
