## **Art Of Loving An Enquiry Into The Nature Of Love:**

**The Art of Loving** Erich Fromm, 1956      **Love's Vision** Troy Jollimore, 2011-07-05 Love often seems uncontrollable and irrational but we just as frequently appear to have reasons for loving the people we do In *Love's Vision* Troy Jollimore offers a new way of understanding love that accommodates both of these facts arguing that love is guided by reason even as it resists and sometimes eludes rationality At the same time he reconsiders love's moral status acknowledging its moral dangers while arguing that it is at heart a moral phenomenon an emotion that demands empathy and calls us away from excessive self concern Love is revealed as neither wholly moral nor deeply immoral neither purely rational nor profoundly irrational Rather as Diotima says in Plato's *Symposium* love is something in between Jollimore makes his case by proposing a vision view of love according to which loving is a way of seeing that involves bestowing charitable attention on a loved one This view recognizes the truth in the cliché love is blind but holds that love's blindness does not undermine the idea that love is guided by reason Reasons play an important role in love even if they rest on facts that are not themselves rationally justifiable Filled with illuminating examples from literature *Love's Vision* is an original examination of a subject of vital philosophical and human concern

*Dialectical Readings* Stephen N. Dunning, 1997-07-18 Interpretation pervades human thinking Whether perception or experience spoken word or written theory whatever enters our consciousness must be interpreted in order to be understood Every area of inquiry art and literature philosophy and religion history and the social sciences even many aspects of the natural sciences involves countless opportunities to interpret the object of inquiry according to very different paradigms These paradigms may derive from the language we speak the nature of our education or personal preferences The abundance and diversity of paradigms make interpretation both fascinating in its complexity and often frustrating for the conflicts it generates In *Dialectical Readings* Dunning distinguishes three types of interpretation each defined in terms of a distinctive dialectical way of thinking theoretical interpretation which assumes binary oppositions transactional interpretation which seeks reciprocal relations and transformational interpretation which discerns paradoxical meanings Dunning offers new and insightful readings of familiar texts by B F Skinner Claude Lévi Strauss Lee Benson Roland Barthes Friedrich Nietzsche and Michel Foucault and sheds new light on works by Thomas Kuhn Joseph Campbell Reinhold Niebuhr Søren Kierkegaard Paul Tillich and Paul Ricoeur *Dialectical Readings* enables readers to recognize diverse dialectical approaches to understanding their own as well as those of others in a way that provides new and helpful insights into a wide variety of subjects in which conflicting interpretations abound

*Psychology and the Other* David Goodman, Mark Freeman, 2015 The figure of the Other is an important though underutilized vehicle for exploring and reconceptualizing classic psychological and philosophical issues from identity and purpose to human frailty and suffering Moreover it can be used to reorient inquiry toward aspects of the human condition that are often regarded as secondary or peripheral for instance our responsibility to others and to the environment A broad spectrum of disciplines including psychology philosophy

theology and religious studies speak about the challenges we face in encountering the Other vis vis our receptivity openness and capacity to entertain the stranger in our midst Through constructive critical exchange Psychology and the Other engages such perspectives on the Other from various subdisciplines within psychology and related disciplines The volume uses the language of the Other as a vehicle for rethinking aspects of psychological processes especially within the therapeutic context As a group the contributors demonstrate that the language of the Other may be more fitting than the egocentric language frequently employed in psychology They also embrace the challenge to create new theories and practices that are more ethically attuned to the dynamic realities of psychological functioning The book is organized into three sections The first deals with foundational philosophical concerns and provides an introduction to the project of thinking Otherwise The second section brings these fundamental philosophical concerns to bear on the therapeutic situation especially in the realm of relational psychoanalysis The final section of the book addresses concrete psychological situations in which the Other figures prominently and where the power of thinking Otherwise is most visibly demonstrated     Writing Selves In Diaspora Sonia Ryang,2008-08-28 Linking autobiographic writings by Korean women in Japan and the United States and the author s ethnographic insights Writing Selves in Diaspora presents an original profound and powerful intervention both literary and anthropological in our understanding of life in diaspora being female and forming selves Each chapter offers unique and original discussion on the intersection between gender and diaspora on one hand and the process of the self s formation on the other Chapters are mutually engaging yet have independent themes to explore language and self romantic love exile and totalitarianism the ethic of care and critique of medicalization of identity Through the introduction of women s lives and introspection and interpretation accorded to them this book delivers an unprecedented text of candor and courage This book will have appeal for both academic and intellectually informed lay readers interested in gender self and diaspora     **It's Lotus Time** Tina Wiegand,2020-02-27 Did you know Unknown convictions steer your life The invisible wall you keep running into the glas ceiling hindering your career the secret marriage contract that turns your love into a war of roses your subconscious mind plays a major role when it comes to finding yourself in troubled waters Once you find ways to gently discover and understand this unconcious part of yourself a new world with unexpected solutions will unfold Questions turn into findings confusion into clarity conflicts into energy for creating new solutions Here s how it works Based on the psychological and philosophical orientation model Wiegand Lotus the Lotus Time supplies a humorous ego stretching for the reflection on yourself Spend some very special Lotus Time with your diary all by yourself with your partner your best friend or even your business confidants Draw one of the expressive and esthetic Lotus Cards from the card deck and find the exiting topics in the workbook that come with them You will come to answer yourself questions you have never asked before Find your purpose add value to your life reflect on your talents your instinct s nature your ancestry your inner child and many more Discover and enjoy the enlightening learning effect of shadow work when you draw cards like greed vanity or hatred

while you work your way through the 60 exiting topics for your soul Find a deeper meaning in your communication and go ahead step by step finding out more about the amazing personality that you are The future is waiting for us to develop So don't hesitate It's high time for Lotus Time      **The Principle of Excellence** Nimi Wariboko, 2009-01-01 This book is a bold attempt to reconceptualize excellence It is no longer the virtue of doing something well or the mean of two extremes but a clearing which allows humans to manifest their potentialities and creatively resist obstacles The concept of excellence is emancipated from the excessive concern with order and good citizenry to become a liberatory principle for interrogating all social institutions in the name of a better future      **Aikido as Transformative and Embodied Pedagogy** Michael A.

Gordon, 2019-07-16 Drawing on the author's lifelong practice in the non-competitive and defensive Japanese art of Aikido this book examines education as self-cultivation from a Japanese philosophy e.g. Buddhist perspective Contemplative practices such as secular mindfulness meditation are being increasingly integrated into pedagogical settings to enhance social and emotional learning and well-being and to address stress induced overwhelm due to increased pressures on the education system and its constituents The chapters in this book explore the various ways through the lens of this non-violent relational art of Aikido that pedagogy is always something being practiced on the level of psychological somatic and emotional registers and thus holding potential for transformation into being more relational ecological minded and reflecting more embodied attunement Positioning education as a practice of self-discovery the author argues that one can approach personal development as engaging in a spiritual process of integrating mind and body towards full presence of being and existence

**The Art of Loving** Erich Fromm, 2016-09-16 The Art of Loving is a book by psychoanalyst and social philosopher Erich Fromm which was published as part of the World Perspectives Series edited by Ruth Nanda Anshen In this work Fromm develops his perspective on human nature from his earlier work Escape from Freedom and Man for Himself principles which he revisits in many of his other major works Fromm presents love as a skill that can be taught and developed He rejects the idea of loving as something magical and mysterious that cannot be analyzed and explained and is therefore skeptical about popular ideas such as falling in love or being helpless in the face of love      **Quest** Sarah Cirese, 1977      **Psychiatric**

**Quarterly**, 1957      New York Times Saturday Review of Books and Art, 1958      **Psychoanalysis as a Spiritual Discipline** Paul Marcus, 2021-04-27 The great existential psychiatrist Ludwig Binswanger famously pointed out to Freud that therapeutic failure could only be understood as the result of something which could be called a deficiency of spirit Binswanger was surprised when Freud agreed asserting Yes spirit is everything However spirit and the spiritual realm have largely been dropped from mainstream psychoanalytic theory and practice This book seeks to help revitalize a culturally aging psychoanalysis that is in conceptual and clinical disarray in the marketplace of ideas and is viewed as a theory in crisis no longer regarded as the primary therapy for those who are suffering The author argues that psychoanalysis and psychoanalytic psychotherapy can be reinvigorated as a discipline if it is animated by the powerfully evocative spiritual moral

and ethical insights of two dialogical personalist religious philosophers Martin Buber a Jew and Gabriel Marcel a Catholic who both initiated a Copernican revolution in human thought In chapters that focus on love work faith suffering and clinical practice Paul Marcus shows how the spiritual optic of Buber and Marcel can help revive and refresh psychoanalysis and bring it back into the light by communicating its inherent vitality power and relevance to the mental health community and to those who seek psychoanalytic treatment Books in Print ,1981 *Essays for studying by Lukas: The Art of Loving by Erich Fromm* Lukas,2022-01-31 Before you is an invitation to introduce you to Erich Fromm s magnificent The Art of Loving An enquiry into the nature of love There may be parts of this book with which you fervently agree and others where you vehemently do not In either case you will not regret the time you spent reading it The pleasure you gain from its reading and the impact of the book on your life will be immeasurable You can talk or argue about Fromm s The Art of Loving but for our part we have limited ourselves to a few short remarks on the rationality or irrationality of that phenomenon called love
