Art Of Perfume Discovering Collecting Perfume Bottles:

The Art of Perfume Christie Mayer Lefkowitz, 1994 Ideals for those interested in collecting perfume bottles including which ones and how to buy them and advice on how to care for and display them **Perfume Bottle Passion** Henry Jeffs, In the quiet corner of an antique shop nestled between forgotten jewelry boxes and tarnished silver sits a small amber bottle no larger than a child's palm Its crystal surface catches the afternoon light refracting golden beams that dance across dusty shelves The bottle's stopper carved into the delicate shape of a rose has witnessed decades of whispered secrets and stolen moments This is not merely a container for fragrance it is a vessel of memory a keeper of dreams and for those who understand its true value a treasure beyond measure The world of perfume bottle collecting represents one of the most enchanting and overlooked areas of decorative arts While many collectors gravitate toward paintings stamps or coins those drawn to perfume bottles enter a realm where artistry meets function where the ephemeral nature of scent meets the permanence of crystal glass and precious metals Each bottle tells a story not just of the fragrance it once contained but of the era in which it was created the hands that crafted it and the lives it touched along its journey The fascination with perfume bottles extends far beyond their utilitarian purpose These miniature works of art represent the convergence of multiple disciplines glassmaking jewelry design fashion and the ancient art of perfumery itself When Ren Lalique began creating his iconic crystal bottles for François Coty in the early twentieth century he elevated what had previously been simple containers into objects of desire that were coveted independently of their contents This transformation marked the beginning of modern perfume bottle collecting as we know it today *The Marriage between Perfume and the Lyric Stage* Mary May

Robertson, 2023-09-22 But what is this scent of balmy air What this ray of light in my tomb I seem to see an angel amid a scent of roses sings Florestan in Fidelio Beethoven's only opera The role of scents smells fragrances and odours in opera has long been neglected just as how much opera and its stars have influenced the world of perfumery from the nineteenth century to the present day In the first book length study on the topic Professor Mary May Robertson explores the relationship between opera perfumes and their respective protagonists in order to map out the previously undiscussed connection between the two Through compelling close readings of librettos and rigorous research through thousands of bottles of perfume the reader will come to appreciate and recognise the influences and exchanges between operas and perfumes and their ultimate marriage in the previously unrecognised genre of Operatic Perfumes which is to say perfumes named after operas composers and their divas **The Soviet Pharmaceutical Business During the First Two Decades (1917-1937)**

Mary Schaeffer Conroy, 2006 Putting privately owned Russian pharmacies and pharmaceutical factories under state control in 1918 1919 did not improve the output and the distribution of soaps disinfectants hormones vitamins and medicines Newly available archival records show that managers appointed by the Soviet government to run sequestered factories employed business methods common to market economies to make the Soviet pharmaceutical sector profitable and productive

However an inefficient macroeconomy and interference in day to day policy making in the core industry by exogenous officials frequent reorganization limits on imports and excessive exports hindered production this plus inefficient distribution shorted consumers Inadequate amounts of pharmaceuticals undoubtedly contributed to high mortality during the civil war 1917 1921 collectivization and industrialization 1927 1938 and World War II 1939 1945

The Essence of Perfume Roja Dove, 2008 The Essence of Perfume is the first book by the world's only Professeur de Parfums and is as captivating as it is informative Beginning with a comprehensive discussion of the sense of smell and the materials of the master perfumer The Essence of Perfume goes on to celebrate the great classics from Guerlain's Shalimar and Vol de Nuit to Chanel's No 5 and Nina Ricci's L'Air du Temps the makers who brought them to life and the designers who gave them shape In an age where the methods and motivations of the original perfumers are all but forgotten Roja Dove unfolds the gripping story of scent with all the passion and devotion of a true artist

Perfume Richard Howard Stamelman, 2006 Publisher description

The Perfume Handbook N. Groom, 2012-12-06 In 1948 I was posted as a Political Officer to a remote part of south west Arabia on the edge of the great desert called the Empty Quarter In valleys made fertile by seasonal flood waters lay the remains of an ancient civilization I found inscriptions and the ruin sites of towns palaces and temples Almost buried under the sand dunes were the tumbled walls of a great city From here two thousand years before huge camel caravans had trudged their way along 1600 miles of burning sand and rocks to Petra and Gaza burdened with a most precious cargo frankincense myrrh and other perfume materials for the courts temples and perfume shops of Rome My book Frankincense and Myrrh delved into the details of this romantic trade and led to a broader interest in the perfumes of ancient times Then researching on behalf of a perfume house into the Arab contribution to perfumery I came across the collection of perfume recipes assembled by the Arab philosopher scientist Yaqub al Kindi which have never been translated into English some which I have translated myself are now included in an appendix to this book I realized that in that work I had found key evidence to demonstrate how the medieval Arab

perfume makers had been the bridge in perfume history between ancient and modern times Perfumery could now be seen as an art with a continuous history of development since the dawn of civilization
