Art Of The Imperial Cholas:

Art of the Imperial Cholas Vidya Dehejia, 1990-10-18 The rule of the Chola dynasty in South India between the ninth and thirteenth centuries was a period of unparalleled creativity in Indian art. Known as the Golden Age of Tamil Culture, the Chola period produced dynamic royal personalities who shaped the artistic activity of their times. *Art of the Imperial Cholas* examines the dynasty's architectural and sculptural achievements which stand among the masterpieces of India.

Art of the Imperial Cholas Vidya Dehejia, 1990-01 This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo, Egypt. Although these women are part of a modernizing middle class, they also voluntarily adopt a traditional symbol of female subordination. How can this paradox be explained? An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle as accommodating protest. These women, most of them clerical workers in the large government bureaucracy, are ambivalent about working outside the home, considering it a change which brings new burdens as well as some important benefits. At the same time, they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity. The new veiling expresses women's protest against this. MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma involving elements of both resistance and acquiescence.

Portraiture in Early India Vincent Lefèvre, 2011-07-12 This book highlights the specificities of Indian portraiture in sculpted and painted images, its relationship with divine images, and aims, with the help of textual and epigraphical references, to understand the development of Indian imagery. It questions also the social and religious implications related to this issue.

The Multivalence of an Epic Parul Pandya Dhar, 2023-10-06 This volume examines the Rāmāyaṇa traditions of South India and Southeast Asia. Bringing together 19 well-known scholars in Rāmāyaṇa studies from Cambodia, Canada, France, India, Indonesia, Malaysia, Singapore, Thailand, UK, and USA, this thought-provoking and elegantly illustrated volume engages with the inherent plurality, diversity, and adaptability of the Rāmāyaṇa in changing socio-political, religious, and cultural contexts. The journey and localization of the Rāmāyaṇa is explored in its manifold expressions from classical to folk, from temples and palaces to theatres and by-lanes in cities and villages, and from ancient to modern times. Regional Rāmāyaṇas from different parts of South India and Southeast Asia are placed in deliberate juxtaposition to enable a historically informed discussion of their connected pasts across land and seas. The three parts of this volume, organized as visual, literary, and performance cultures, discuss the sculpted, painted, inscribed, written, recited, and performed Rāmāyaṇas. A related emphasis is on the way boundaries of medium and genre have been crossed in the visual, literary, and performed representations of the Rāmāyaṇa.
