The Art of War for Talent. How Companies Can

Gain a Competitive Advantage by Fostering a Culture of Intrinsic Motivation and Meaningful Work Niklas Baier, 2020-04-23
 Bachelor Thesis from the year 2019 in the subject Business economics Review of Business Studies grade 1 3 Technical
 University of Munich TUM School of Management Chair for Management Accounting language English abstract The bachelor
 thesis combines theories literature lab and field experiments event studies from the industry and its very own empirical
 research to argue from both a strategic as well as a financial perspective that an inimitable organizational culture of intrinsic
 motivation and meaningful work may constitute a source of competitive advantage within the War for Talent The thesis
 strives at highlighting the importance for firms to adapt to the newly emerged competitive environment that the ongoing War
 for Talent has created by considering their people as their most valuable asset for the success of the organization as already
 hinted at throughout The Art of War by Sun Tzu in 500 BC hence the reference in the title of this thesis After a brief review of
 the circumstances that led to the emergence of the War for Talent and first implications for the industry it is argued from a
 strategic perspective why motivated talent depicts the key resource for competitive advantage and why conventional
 extrinsic incentive measures aimed at maximizing productivity are no longer effective Afterwards a proposition will be made
 of how capitalizing on intrinsic motivation human s inner drive to accomplish inherently interesting and challenging tasks
 fostered through a framework of meaningful work might be the decisive driver to get ahead in the quest for talent A second
 string of argumentation draws a connection between meaningful work and superior financial performance This proposition is
 then tested by an empirical analysis comparing the financial performance of publicly traded companies featured on the 2017
 Fortune 100 Best Companies to Work For list against a control portfolio and the broad market confirming significant
 differences for cumulative stock returns **Sun Tzu** Gerald A. Michaelson, Steven Michaelson, 2013 **Business**
