Art On Screen:

Screen-based Art Annette W. Balkema, Henk Slager, 2000 In the 21st century the screen the Internet screen the television screen the video screen and all sorts of combinations thereof will be booming in our visual and infotechno culture Screen based art already a prominent and topical part of visual culture in the 1990s will expand even more In this volume digital art the new media as well as its connectedness to cinema will be the subject of investigation The starting point is a two day symposium organized by the Netherlands Media Art Institute Montevideo TBA in collaboration with the L B Lier en Boog series and the Amsterdam School of Cultural Analysis ASCA Issues which emerged during the course of investigation deal with questions such as How could screen based art be distinguished from other art forms Could screen based art theoretically be understood in one definite model or should one search for various possibilities and or models Could screen based art be canonized What are the physical and theoretical forms of representation for screen based art What are the idiosyncratic concepts geared towards screen based art This volume includes various arguments positions and statements by artists curators philosophers and theorists The participants are Marie Luise Angerer Annette W Balkema Ren Beekman Raymond Bellour Peter Bogers Joost Bolten No l Carroll Sean Cubitt C lin Dan Chris Dercon Honor d O Anne Marie Duquet Ken Feingold Ursula Frohne hARTware curators Heiner Holtappels Aernout Mik Patricia Pisters Nicolaus Schafhausen Jeffrey Shaw Peter Sloterdijk Ed S Tan Barbara Visser and Siegfried Zielinski **Art and Artists on Screen** John Albert Walker, 2010-09 **Silk-Screen Printing for Artists and Craftsmen** Mathilda V. and James A. Schwalbach, 2012-07-26

Screen printing is simple enough for a child or beginner but it is also a favorite printing process of experienced artists and craftspeople It allows for a wide range of creative possibilities It is less inhibiting than other printing processes And contrary to most other methods of printing it does not require the user to make the mental translations of a reversed image The extreme versatility of the medium has opened completely new possibilities for design and expression in both serigraphy art prints and textile designs The Schwalbachs book clearly explains how to employ silk screen printing in both of these areas producing a serigraph and making a fabric print It also sets down all of the steps involved in constructing a printing board and frame keying the screen preparing inks or dyes and printing the color runs plus a list of various problems that might turn up and their solutions Other facets discussed include the best ways of cleaning up handling the completed print and working with different resists paper blockout washout photo emulsion There is even a special print project for the beginner using a cardboard frame and school tempera paint Nearly 200 diagrams and photographs including 19 in full color make a clear text even clearer and offer examples of completed prints The Schwalbachs taught silk screen printing for many years at the University of Wisconsin They know how to communicate the essence of this craft in the best manner possible With their book as a guide anyone can quickly master the techniques of silk screening printing **Screens** Kate Mondloch, 2010 Media screens film video and computer screens have increasingly pervaded both artistic production and everyday life since the

1960s Yet the nature of viewing artworks made from these media along with their subjective effects remains largely unexplored Screens addresses this gap offering a historical and theoretical framework for understanding screen reliant installation art and the spectatorship it evokes Examining a range of installations created over the past fifty years that investigate the rich terrain between the sculptural and the cinematic including works by artists such as Eija Liisa Ahtila Doug Aitken Peter Campus Dan Graham VALIE EXPORT Bruce Nauman and Michael Snow Kate Mondloch traces the construction of screen spectatorship in art from the seminal film and video installations of the 1960s and 1970s to the new media artworks of today s digital culture Mondloch identifies a momentous shift in contemporary art that challenges key premises of spectatorship brought about by technological objects that literally and metaphorically filter the subject s field of vision As a result she proposes that contemporary viewers are quite literally screen subjects and offers the unique critical leverage of art as an alternative way to understand media culture and contemporary visuality *Paris Universal Exhibition of 1867*, 1868
