Disrupt Yourself Katie Malachuk, 2022-07-10 Review Katie Malachuk writes with great style and humor. She is accessible and personal, yet she is also a scholar and practitioner with a thorough background in her subject. Quite a rarity. *Disrupt Yourself* displays all of these qualities in abundance. It is exactly what is needed to stand strong in the current tidal wave of misinformation about mindfulness practice based in Buddhism. Sarah Harding Niguma, *Lady of Illusion* and Machik's Complete Explanation: Clarifying the Meaning of Ch'd Product Description. We have had enough. We are depleted from overconsumption: technological, material, environmental, social, physical, sexual. We feel defeated by climate change, political antagonism, social injustice, the pressure to be perfect, and the anxiety of being alive. We try spiritual, this and that, but shopping for practices and performative spirituality drain us further. We are tired of the way we think, talk, and live. We have had enough. We have had enough of ourselves. Enter *Disrupt Yourself*, a book that is both a salve and a dare for our time. Using Buddhist teachings and lay precepts, it cuts through our confusion via the oft-forgotten foundational practice of ethics. *Disrupt Yourself* presents an everyday path that puts us in right relationship with ourselves, each other, and our world through relevant renunciation around intoxicants, consumption, identity, communication, and intimacy. Through narrative, instruction, and experiments, readers will uncover their inherent wisdom and its active expression of compassion. This transforms how we think, speak, listen, act, work, create, partner, parent, eat, shop, vote, govern, perform, protest, play, love, make love, all of it. We disrupt ourselves, and this disrupts our world. And the big reveal is how joyful and freeing this feels. About the Author: Katie Malachuk, Harvard BA, Stanford MBA, Naropa MDiv, is a Buddhist chaplain, mind and life coach, yoga and meditation teacher, and college instructor. City Making Gerald E. Frug,2001-02-20 American metropolitan areas today are divided into neighborhoods of privilege and poverty often along lines of ethnicity and race City residents traveling through these neighborhoods move from feeling at home to feeling like tourists to feeling so out of place they fear for their security As Gerald Frug shows this divided and inhospitable urban landscape is not simply the result of individual choices about where to live or start a business It is the product of government policies and in particular the policies embedded in legal rules A Harvard law professor and leading expert on urban affairs Frug presents the first ever analysis of how legal rules shape modern cities and outlines a set of alternatives to bring down the walls that now keep city dwellers apart Frug begins by describing how American law treats cities as subdivisions of states and shows how this arrangement has encouraged the separation of metropolitan residents into different sometimes hostile groups He explains in clear accessible language the divisive impact of rules about zoning redevelopment land use and the organization of such city services as education and policing He pays special attention to the underlying role of anxiety about strangers the widespread desire for good schools and the pervasive fear of crime Ultimately Frug calls for replacing the current legal definition of cities with an alternative based on what he calls community building an alternative that gives cities within the same metropolitan region incentives to forge closer links with each other An incisive study of the legal roots of today s urban problems City Making is also an optimistic and compelling blueprint for enabling American cities once again to embrace their historic role of helping people reach an accommodation with those who live in the same geographic area no matter how dissimilar they are Pharmaceutical Polymer Formulations and its Applications
