in modern history *Masters of the Post* Duncan Campbell-Smith, 2011-11-03 The origins of the Post Office go back to the early years of the Tudor monarchy Brian Tuke a former King's Bailiff in Sandwich was acknowledged as the first Master of the Posts by Cardinal Wolsey in 1512 and went on to build up a network of postmasters across England for Henry VIII Over the following five hundred years the Royal Mail expanded to an unimaginable degree to become the largest employer in the country and the face of the British state for most people in their everyday lives But it also faced the demands of an increasingly commercial marketplace With the election of Margaret Thatcher in 1979 the possibility of privatising the Royal Mail has prompted passionate arguments and has added immeasurably to the difficulties of running it In charting the whole of this extraordinary story Duncan Campbell Smith recounts a series of remarkable tales including how postal engineers built the first programmable computer for the wartime code breakers of Bletchley Park and how the Royal Mail managed to successfully continue delivering post to the front lines during two world wars but also how they failed to avert the Great Train Robbery of 1963 He brings to life many of the dominant personalities in the Royal Mail's history from Rowland Hill who imposed a uniform penny post and set the great Victorian expansion on its way to Tony Benn who championed the modernisation of the service in the 1960s and Tom Jackson who led the postal workers' biggest union through fifteen frequently stormy years up to 1982 This is the first complete history of the Royal Mail up to the present day based on its comprehensive archives and including the first detailed account of the past half century of Britain's postal history made possible by privileged access to confidential records Today's debate over the future of the Royal Mail is shown to be just the latest chapter in a centuries-old conflict between its roles raising revenue and serving the public Will its employees remain like Brian Tuke's postmasters servants of the Crown This book could hardly appear at a more timely moment **The British National Bibliography** Arthur James Wells, 1994 *Edinburgh History of the British and Irish Press, Volume 2* Finkelstein David Finkelstein, 2020-01-10 A thorough account of newspaper and periodical press history in Britain and Ireland from 1800 1900 Provides a comprehensive history of the British and Irish Press from 1800 1900 reflected upon in 60 substantive chapters and focused case studies Sets out to capture the cross regional and transnational dimension of press history in nineteenth century Britain and Ireland Offers unique and important reassessments of nineteenth century British and Irish press and periodical media within social cultural technological economic and historical contexts This is a unique collection of essays examining nineteenth century British and Irish newspaper and periodical history during a key period of change and development It covers an important point of expansion in periodical and press history across the four nations of Great Britain England Ireland Scotland and Wales concentrating on cross border and transnational comparisons and contrasts in nineteenth century print communication Designed to provide readers with a clear understanding of the current state of research in the field in addition to an extensive introduction it includes forty newly commissioned chapters and case studies exploring a full range of press activity and press genres during this intense period of change Along with keystone chapters on
