*How to Create Your Own Organic Kitchen Garden - A Newbie's Guide to Making Your Own Potager - Kailyaird!* Dueep Jyot Singh, John Davidson, 2017-02-23 Table of Contents Introduction Benefits of Your Own Kitchen Garden Best Position Placing of Your Garden Basic Tools Plants of choice Potatoes Lettuces Radishes Shallots and Chives Carrots Beans and peas Spinach Tomatoes Basil and mint Best Time for Planting Preparing your Land Planting Tips Using Neem Cake Succession and Companion Cropping Compost and Soil The Importance Of Mulch Conclusion Author Bio Publisher Introduction As more and more of us are looking for healthier food alternatives and easy food resources which do not add to the burden of our limited budget is it surprising that so many of us are interested in how to make a potager This is the French word for what is a kitchen garden In Scotland they call it a Kailyaird or simply the yard where you are going to grow your family s necessary requirements of fresh fruit and vegetables depending on the space available During the First World War this was called a Victory garden This is the place which is not going to be cluttered up with lots of sweet smelling blossoms It is going to be reserved just for vegetables and herbs which are ready to go right into your cooking pot Also the lawn area is definitely not going to be utilized in the making of a potager Leave that particular area to the grass A kitchen garden also known as a vegetable plot has been used by mankind for centuries in order to grow their own vegetables That is because man would rather have easy access to his food then go out hunting for it And that is what made him add fruit and vegetables to his daily diet instead of substance on just animal products like meat fish and game which needed to be hunted in all weather depending on the need and requirement of the tribe and family And that is why he began domesticating farm animals But we a large number of us who are town dwellers or city dwellers have supposedly lost touch with our roots no pun intended and that is why we can not imagine ourselves grubbing in the family farms or plots from dawn to dusk in order to get enough of a harvest to feed our families
