Disenchanted Modernity in Robert Kroetsch's *The Studhorse Man* Francis Zichy, 2010 This book undertakes a detailed reading of Robert Kroetsch's *The Studhorse Man* examining this Canadian novel in its transnational historical and socio cultural context Key subject headings are biology and culture sex and gender eugenics and contraception writing and reading The overarching theme is disenchanted modernity in the twentieth century the systematic displacement of the divine and natural order by a humanly ordained social regime and by forms of social engineering that brought to bear the full force of modern science invasively to alter the most fundamental conditions of human life The more immediate literary frames of reference are Greek mythology early Christian debates on the body and marriage and the lore of the North American Aboriginal trickster as these are deployed and alluded to in Kroetsch's novel In establishing the sources and contexts of *The Studhorse Man* this study examines Robert Kroetsch's early drafts of the novel and his many notes taken and clippings assembled during its composition An effort has been made to appeal to a wide range of general and academic readers alike by avoiding specialized jargon and adopting a cross disciplinary approach This book will be of interest to scholars of literature and literary theory and of use in courses on literature and the novel on masculinity and gender studies and on cultural history in the twentieth century

Tolstoy's Family Prototypes in "War and Peace" Brett Cooke, 2020-11-24 What were the consequences of Tolstoy's unusual reliance on members of his family as source material for *War and Peace* Did affection for close relatives influence depictions of these real prototypes in his fictional characters Tolstoy used these models to consider his origins to ponder alternative family histories and to critique himself Comparison of the novel and its fascinating drafts with the writer's family history reveals increasing preferential treatment of those with greater relatedness to him kin altruism i.e. nepotism This pattern helps explain many of Tolstoy's choices amongst plot variants he considered as well as some of the curious devices he utilizes to get readers to share his biases such as coincidences notions of fate and aversion to incest

Creating Sustainable Careers in Student Affairs Margaret Saltee, 2023-07-03 This book argues that the current structure of student affairs work is

not sustainable as it depends on the notion that employees are available to work non stop without any outside responsibilities that is the Ideal Worker Norm The field places inordinate burdens on staff to respond to the needs of students often at the expense of their own families and well being Student affairs professionals can meet the needs of their students without being overworked The problem however is that ideal worker norms pervade higher education and student affairs work thus providing little incentive for institutions to change The authors in this book use ideal worker norms in conjunction with other theories to interrogate the impact on student affairs staff across functional areas institutional types career stage and identity groups The book is divided into three sections chapters in the first section of the book examine various facets of the structure of work in student affairs including the impact of institutional type and different functional areas on employees work lives Chapters in the second section examine the personal toll that working in student affairs can take including emotional labor s impact on well being The final section of the book narrows the focus to explore how different identity groups including mothers fathers and people of color navigate work life issues Challenging ideal worker norms all chapters offer implications for practice for both individuals and institutions
